

Vijay Rupani
Chief Minister, Gujarat State

NO. CMS GOI/120/2018

14 MAY 2018

Respected Shri Javadekar ji

Gujarat is among the most industrialized, innovative and entrepreneurial states of India and has witnessed tremendous growth across all sectors. The State has emerged as a favored investment destinations for national and international investors.

Our Education sector, with its various initiatives has driven the vibrant growth of the states' economy and development. The state aspires to further develop its education system both from human development perspective and for its improved preparedness in developing a knowledge based economy.

We have formed strong alignment with industry, research institutions and entrepreneurs to provide access to qualitative education for our youth and to leverage the demographic dividend of the state. Gujarat has consistently been among the top ranked states when it comes to ease of doing business by providing with ample avenues for investment and growth in the field of higher education.

Rashtriya Uchchar Shiksha Abhiyan (RUSA) is centrally sponsored scheme for improving overall quality of existing state higher education institutions. RUSA Scheme aims to improve the quality of State Universities and colleges and enhance their existing capacities through funding under various components of the RUSA scheme. Gujarat state has prepared State Higher Education Plan (SHEP) for RUSA 2.0. I as a President of SHEC approve this SHEP for RUSA 2.0 and very glad to submit this to MHRD for further consideration in the benefits of the State Institutes.

With regards,

Yours Sincerely,

(Vijay Rupani)
President of SHEC

To,
Shri Prakash Javadekar
Hon'ble Minister of HRD,
Government of India
