### Component 11: Faculty Improvement

For faculty improvement the Academic Staff Colleges have to plan. The proposal sent by the university has to be scrutinized at the state level on the basis of RUSA guidelines. The proposal after scrutiny should be presented in the tabular form:

Norms	Indicator	Unit	Training Institute -1	Training Institute 2 & c	University -1	University -2 &c	Academic Staff college - 1	Academic Staff college – 2 &C
financial support planned by the state		Rs. in cores						
Funds for training / other faculty improvements	Academic faculty	Rs. In lakhs						
	Other Administrative & Support Staff	Rs. in lakhs						
Funds required for Books / e-resources		Rs. in lakhs

### **COMPONENT – 11 : FACULTY IMPROVEMENT PROGRAMME**

Issues like accessibility, equity and quality determine the direction of policy and implementation in Higher Education. In a highly changing global context, and the strong need for enabling the knowledge economy, it is high time that right systems are put in place and facilitating environment is created to make and implement enabling strategies. Faculty Improvement through Capacity building of the system of higher education is the need of the hour in this direction.

**Need for Faculty Improvement:-**The Karnataka Vision 2020 Document envisages inter alia achieving a gross enrolment ratio to 30% which currently stands at 12.4%. There is a immediate need for faculty improvement. A cursory look at current higher education scenario reveals clearly the decadence in higher education which is quite worrisome due to the falling standards and quality of teachers and the taught.

1. The ever burgeoning student output from secondary education resulting due to increasing GER which is enhanced on implementation of Right to Education (RTE) Act would need to be accommodated in higher education without compromising with quality, equity and accessibility.
2. The task of attracting more and more students to higher education becomes more challenging uphill task to accommodate these students into higher education in a meaningful and fruitful manner.
3. To address these growing challenges we need more and more educational infrastructure and more importantly the human resource both in terms of number and quality. Today's woe of higher education is dearth of quality teachers in adequate number.
4. To address quality faculty problem - interventions are required to be made not only to meet the training and capacity building of teachers in service but more importantly we must ensure that the new incumbents who enter into teaching service are teachers by choice and not by chance.
5. Setting high standards for teaching career with stringent measures of selection ensued by rigorous training is crucial for promoting quality in Tertiary Education.

The Department of Collegiate Education commits itself to train and honed the teachers for hard work, commitment, positivity, analytical skills, communication skills, entrepreneurial skills, motivation, inspiration, facilitation, competitiveness, punctuality, discipline and other ethical issues.

### **Faculty Capacity Building Initiative: Teachers**

The Department is keen to focus on “Investing in People”. There is an imminent need for focusing on HR Training of all Teachers and Administrative Staff working in the jurisdiction of the Department of Collegiate Education.

Capacity Building of Teachers and non-teaching personnel is of paramount importance for meaningful teaching-learning and qualitative improvement in the higher education sector. This intervention will ensure creation of a knowledge society and creation of strong human resource pool necessary for nation building.

The Training would constitute:

Training in soft skills,

Communication Skills,

Pedagogy/Androgogy (advanced pedagogy),

Counseling Skills,

Visioning,

Leadership,

Mentoring,

Domain based knowledge,

Non-Domain knowledge,

UGC/Quality/KCSR/Conduct Rules,

Professional Development,  
Research and Development, Publication,  
and other relevant areas .

The Department proposes to launch an initiative called “Capacity Building”, under which the present teacher empowerment programme will be called Level-1. It is proposed to have Level -1 to Level- 4 Programmes for teachers. Level-1 and Level-2 will take care of training of teachers in the AGP Pay Band of Rs. 6,000-8,000. Teachers in AGP Pay Band of Rs. 9,000/- and beyond will be given Level-3 and Level-4 Training.

#### **Capacity Building Initiative: Administrative Personnel:**

Under the Capacity Building initiative the administrative personnel working in the Department of Collegiate Education and Technical Education will receive the necessary training for efficient and effective functioning. DCE has already put in place training for Principals and other Administrators through ATI and training of other administrative personnel is taken care of by the District Training Institutes (DTIs) set up in different District Headquarters.

#### **Capacity Building through Training:**

- TNA for MDP (Management Development Programme)

(Director, Addnl. Director, Joint Directors, DDs, Special Officer, Officers on Special Duty and Coordinators)

- TNA for Assistant Professors (Level 1 and Level 2)
- TNA for Associate Professors (Level 3 and Level 4)
- TNA for Physical Education Teachers
- TNA for Librarians
- TNA for Administrative Personnel:
  - Asst. Directors Managers
  - Superintendents, FDA, SDA and Typist

### **MDP Programme:**

Management Development Programme after the TNA to be organized in consultation with Administrative Training Institute, Mysore, I of C at Panchagani, NUEPA, other institutes in India that deal with Policy, Planning and administration.

### **Teachers' Training :**

**Level 1** (Teachers in 6,000-8000 AGP)- BASIC Level

**Level 2** (Teachers in 9000 AGP and beyond) – Advanced Level

**Level 3**

Intensive Academic Interaction Programme

(Domain Knowledge and non-domain knowledge, Refresher mode, emerging areas, Research and advanced Research, Panel of experts in Domain knowledge to interact, Mentor System, etc. Note: At the end of the 07 day or 10 day programme every participant to come up with a project, presentation,

half an hour session for video recording telecast purposes, Output based Training and monitoring will be emphasized.

#### **Level 4**

Tailor made short term courses in IIM, IISc, I of C, ISEC, Institutes of excellence –both domain and non-domain, will be roped in for training for Professors/Associate Professors – specialized training.

Note: A system has to be evolved where this specialized training is extended only for those who prove their performance. It is purely performance based incentive as it involves substantial expenditure for the government.

#### **Training for Librarians**

Institutes all over India have to be identified for specialized training, emerging areas in Library Science and Maintenance of Libraries as Information Centres, etc have to be done and Librarians will be trained in these centres.

#### **Training for Physical Education teachers**

Institutions of national importance that deal with Physical Education to be identified for training. Note: Physical Education Teachers working in Collegiate Education Dept. with specialization in different games and sports have to be recognized, eg. Football and declared as identified Resource Person for a game or event and roped for training and interaction with others.

#### **Training of Administrative Personnel**

Based on the TNA, the administration personnel in two categories, viz., Asst. Directors and Managers and Superintendents, FDA, SDA and Typists will be trained in DTIs and emerging areas like HRMS, ICT, Office automation, besides soft-skills, office maintenance, procedures, etc.

The Capacity Building Cell which would be established in the Department would prepare a detailed Roadmap or action plan, identify agencies, chart modules and map the shape of training to be imparted to all personnel of the Department.
