Executive Summary

W.B. accounts for a considerable proportion of manpower of India and is an important destination for the development of higher education. The population of the State is at 9.13 crores of which 68.13 percent are from rural areas. The 18-23 yrs population is at 1.06 crores. The Gross Enrolment Ratio (GER) of the state is 17.5 with the male GER at 19. There are 1311 institutes undertaking higher education courses in W.B. with majority of the colleges conducting general degree courses. The State has a PTR (Pupil Teacher Ratio) of 43:1 against the national average of 24:1.

The aspiration of the people of W.B. to pursue quality education along with the commitment of the State Government creates a splendid opportunity for the growth of the higher education sector. Constant efforts are being made by the Department of Higher Education, to achieve Inclusiveness, Employability and Excellence in the higher education sector. In the present plan period there have been many seven new Universities created including three private universities. There is an Education Commission set up by the Government of W.B. to take stock of the entire education sector and prepare a roadmap and vision document of 2020 and 2030. This Commission consists of highly reputed members and experts from various education disciplines and all their views have been accounted while preparing the State Higher Education Plan.

The five year plan of the State has been calculated based on the remaining three years of the 12th Five year plan period. Tremendous efforts have been directed towards attaining the national GER target of 25.2 percent. A model has been worked out to determine the incremental capacity in terms of student enrolments that the State would need to accommodate in order to reach the GER target. Based on this model, increase in existing college infrastructure and creation of new colleges has been determined.

The higher education department has meticulously focused on Educationally Backward Districts and districts with low GER. New model colleges would be created at identified locations to provide access of higher education to bright students from low economic backgrounds. Equity, access and governance have been kept in mind while working on the demand of higher education in the respective regions. RUSA guidelines have been used to associate the mentioned components with financial investments distributed amongst the central and state governments. A micro level plan has been prepared for developing existing and setting up new universities and colleges. Funds have been strategically allocated among all government and government aided colleges and state aided universities to improve quality in the higher education sector. The higher education department has encouraged industry-academia linkage to make higher education employable along

W.B. State Higher Education Plan; Government of W.B.

with introduction of vocational courses. MIS and ICT tools have been given immense importance along with budgetary provisions to bridge the gap between rural and urban institutions.

The State Government has taken due cognizance of the aspirations of students and has also invested in research innovations with efforts of making the State a research and innovation hub of the east. With the advent of RUSA mission, the Government of W.B. will ensure to escalate the prevailing glory and cultural heritage of the State to even higher levels.

Chapter 1: Introduction

Vision

W.B. has been home to many Nobel laureates, poets, philosophers, great scientists and socio-religious reformers. It has been a land where many modern movements in various fields such as arts, science and cinema were initiated. Bengal was one of the most prosperous territories of the British Empire.

The socio-economic development of W.B. on a sustainable basis is inextricably linked with the higher education system of the state. Calcutta Madrasah and Calcutta Medical College, the oldest in Asia, were set up in 1780 and 1835 respectively. University of Calcutta was established in 1857 as the first full-fledged multi-disciplinary University in South Asia. In 1905, due to the division of Bengal, the nationalistic and anti-British feelings propagated to every corner of the state. This led to the setting up of the National Council of Education, Bengal which later became the Jadavpur University in 1955. The Visva Bharati University at Shantiniketan, founded by Rabindranath Tagore in 1939, is a Central University and an Institution of National Importance.

The Department of Higher Education, Government of W.B. has taken due cognizance of this rich cultural heritage of the State while determining the higher education vision. It would focus majorly on making higher education institutions:

- Need – based, affordable, high quality and accessible for all
- Provide access to students from all sections of the society with special emphasis on SC/ST/OBC, female students and differently-abled students
- More responsive to the needs of the growing economy and society.
- Provide congenial and quality environment to students through improved infrastructure and high quality staff

Higher education in the State is being re-engineered to open up new avenues for students and create new opportunities for them in diverse fields. The universities have been directed to work on the foundation of modern and up-to-date curriculum and practices, with the objective to create an ambience of research, atmosphere of creativity and promotion of innovations. The global standards of education have been set as

benchmarks and huge investments have been planned to develop infrastructure and attract people from all over the world, thereby creating a strong presence of the state academia at a national and international level.

The higher education system will inculcate vocationalisation and incorporate courses aimed at improving skill development, entrepreneurship enhancement and creation of employment opportunities and ultimately yearn to make higher education more employable. The higher education institutions would be transformed into centres of excellence committed to the realisation of the vision of the State. On one hand, they will be self sustaining nerve centre of the socio-cultural transformation of the State and on the other, an inseparable component of the 'engine of growth' in the development trajectory of the W.B..

Mission

The Department of Higher Education, Government of W.B. is committed towards the development of higher education system of the State with the fundamental objective of:

- Restoring the pre-eminence of W.B. in the education sector
- Transforming W.B. into the most sought-after higher education destination in the country
- Elevating W.B. as one of the top ranking States of the country in the field of higher education

In this regard the State Government would majorly focus on three identified critical areas of the higher education sector – Inclusiveness, Excellence and Employability.

Inclusiveness

The State Government would ensure that access to higher education is offered to people from all strata of the society. Economic background of a person would not anymore act as a deterrent in acquiring higher education. The Universities in the State would work in unison towards increasing the enrolments in higher education institutions and focus in developing the inclusiveness of the higher education sector. The thrust would be to:

- Expand the higher education network exponentially not only to cater to the needs of the contemporary society but also to capture the dreams of the posterity

- Identify the economically backward districts of the state and construct new state of the art model colleges in those districts
- Diversify the higher education sector by introducing new courses in colleges and expanding the scope of students enrolled in higher education institutes
- Improve the Higher Education GER (Gross Enrolment Ratio) by taking steps to support the under privileged and preserving their interests.
- Follow a rational and scientific approach with the help of ICT tools for admissions in higher education institutions in order to attract the most meritorious students and address the problem of migration of students to other states and countries.

Excellence

The State Government would make determined efforts for grooming students and provide them the best opportunities in the higher education sector. The emphasis would be to:

- Benchmark the curriculum, infrastructure and other facilities with national and global standards as a step towards becoming a knowledge-intensive economy
- Improve the efficacy of the higher education system towards proper management and homogenous development across the state
- Promote inter disciplinary studies by creating opportunities through exchange programs with international institutions and facilitate national and international interactions amongst faculty to provide exposure and learning experience.
- To stimulate the academic environment for the promotion of quality of teaching-learning experience
- To encourage self evaluation, accountability, autonomy and innovations in collaboration with the stakeholders in order to improve the quality of faculty
- Offer solutions to infrastructure problems in areas of research and development, leading to innovations
- To create online linkage between universities and colleges through use of ICT tools
- To train faculty in creation of instructional design content and implementation of capacity building measures
- Inculcate qualities of leadership, teamwork, ethics and commitment amongst students and make them aspire to achieve excellence

Employability

The State Government would ensure that students pursuing higher education in the State are employable post their graduation. The subjects taught in the higher education institutions are in accordance with the demand and supply scenario in the job market. The focus would be to:

- Establish industry academia linkage by encouraging internships as a part of higher education curriculum.
- Promote technical education through tie-ups with industries and create employment opportunities for the youth
- Vocationalise higher education by introducing new age vocational courses which would generate employment
- Foster research and development to create a global brand and make W.B. a preferred investment destination
- Provide substantial investments to accomplish academic projects, infrastructural development and stay updated at a global level
- Invest in developing leadership qualities amongst students and make them industry ready.

Goals

The Department of Higher Education, Government of W.B. has set goals for higher education of the State in line with the national mission. The thrust areas of the State would be access, equity and quality which together would help in shaping up the higher education system and provide opportunities to the upcoming youth of the state.

Access to higher education is crucial in improving the GER of the state. The national mission has set a national average target of 25.2 percent GER by 2017-18 and 30 percent by 2021-22. This can be achieved with the following goals:

- To increase GER of the State from present 17.5 (as per AISHE 2012-13) to 25.2 by end of 2017 and subsequently to 30 by end of 2022
- To increase equity in higher education by providing adequate opportunities to economically deprived rural communities, women, SC/ST/OBC and differently-able persons
- To improve Pupil-Teacher ratio from present 43:1 to 24:1
- To enrich and enhance knowledge of the teachers in order to bring in excellence in pedagogy
- To create centers of vocational training and skill development at all institutions so that the students are industry ready

W.B. at present has 1311 higher education¹ institutions across all categories of government, government aided and private institutions. Infrastructure of the current institutions needs to be upgraded to accommodate more students. These institutions shall be the epicenter to increase the enrolments in W.B..

New institutions in terms of model colleges would be set up to sustain the incremental student inflow in the State for admissions in higher education institutions. Focused and planned development would be undertaken in regions having low penetration of higher education facilities. New vocational courses would be designed according to the demand in the economy and skill sets of the students would be developed to assist in obtaining suitable jobs.

Creation of new universities and conversion of autonomous colleges into universities would help in maintaining homogeneity across the State. There would be clustering of colleges made based on geographic regions which would help in improving the efficiency of management.

As the state has 17 educationally backward districts² identified by UGC, special emphasis would be made to upgrade their stature by creating new model colleges. Constant initiatives would be taken to promote higher education amongst the SC and ST students in W.B.. The State would increase the number of scholarships that are offered to ensure that bright students who are economically deprived are able to enrol into higher education institutions.

The State would also focus on strengthening the Research and Development scope by making investments to upgrade the existing infrastructure and facilities. There are at present 11 important research institutes³ in the State. Investments would also be made to improve the post graduate discipline of the state universities creating more options of research.

The Department of Higher Education has initiated concerted efforts in filling up the vacant faculty positions. Budgets have been allocated and recruitment process is already underway to increase the PTR of the State. E-classrooms are being developed in accordance with the National Knowledge Network (NKN) to increase the reach of top notch faculty even in remote locations.

Chapter 2: Background

W.B., also known as the cradle of Indian Renaissance as well as National Freedom movement, has been a land of intellectual awakening where many modern movements in various fields such as arts, science and cinema were initiated. Bengal had been the centre of great human values and intellectual capital which made it one of the most prosperous territories of the British Empire. Being home to many Nobel laureates, poet-philosophers, great scientists and socio-religious reformers, Bengal possesses a rare beauty soaked in culture and academics with the legacy of the past still persisting at present.

The pre-independence Province of Bengal was divided into two new provinces "Bengal" (comprising western Bengal as well as the province of Bihar and Orissa) and "East Bengal and Assam" with Dacca (Dhaka) being the capital of the latter. Bengal was severely centralized in the capital, Calcutta. Most of the factories and mills in Bengal were established in and around Calcutta even though the major sources of the raw materials for these factories were in East Bengal. Most of the educational institutions were also situated in Calcutta including the lone university in Bengal. These lead to the migration of immense number of people from East Bengal which caused constant pressure on the economy of Bengal.

The Province of Bengal has played a dominant role in spreading education at various levels in the country including mass modern education, professional and specialized education. It has played a pioneering role in the development of the modern education system in India. People like Raja Ram Mohan Roy, Ishwar Chandra Vidyasagar, William Carey, Alexander Duff and David Hare played pre-eminent role in setting up the some of the most renowned schools and colleges. Serampore College, which later became India's first modern university, was set up in 1819. Later the Sanskrit College and Scottish Church College were also established in 1824 and 1830 respectively. These institutions played a significant role in Young Bengal Movement and Bengal Renaissance.

At present W.B. has 1311 higher education institutions out of which 37 are government institutions and 447 are government aided institutions. There are 22 State Universities, 2 central universities, 5 institutes with special status, 11 important research institutes and 3 private universities. There are 18.69 lakh⁴ of students enrolled in higher education institutions and the Gross Enrolment Ratio (GER) of the State is at 17.5.⁵

Demographic Profile of W.B.

W.B. is the fourth populous state in India after Uttar Pradesh, Maharashtra and Bihar. As per details from Census 2011, W.B. has population of 9.13 Crore, an increase from figure of 8.02 Crore in 2001 census. Decadal growth of population has reduced to 13.93 percent during 2001-11 from 17.77 percent during 1991-2001. W.B. is among the most populous regions in India with a population density of 1029 per sq.km in comparison to national average of 382 per sq.km.⁶

Decade ¹	India	W.B.	Uttar Pradesh	Behar	Maharashtra
1991-2001	21.5	17.8%	25.9%	28.6%	22.7%
2001-2011	17.6	13.9%	20.1%	25.1%	16%

⁴ Source: Annexure Table 3. RUSA Plan document

⁵ Source: Annexure Table 4. AISHE 2012.

⁶ <http://censusindia.gov.in/>

The population is not evenly distributed among the 19 districts in W.B. with the top ten most populous districts in W.B. comprising over 70 percent of state population. North 24 Parganas, South 24 Parganas, Burdwan, Murshidabad, Paschim Medinipur, Hooghly and Nadia are key districts accounting for the largest portion of the state population.

S. No.	Districts	Total population	Population in the age group of 18-23 years	Enrolment	GER (%)
1	North 24 Paraganas	10,082,852	1,179,366	225,168	19.09%
2	South 24 Paraganas	8,153,176	953,657	122,755	12.87%
3	Burdwan	7,723,663	903,418	206,605	22.87%
4	Murshidabad	7,102,430	830,754	107,556	12.95%
5	Paschim Medinipur	5,943,300	695,173	80,662	11.6%
6	Hoogly	5,520,389	645,706	128,029	19.83%
7	Nadia	5,168,488	604,545	119,928	19.84%
8	Purba Medinipur	5,094,238	595,860	93,759	15.74%
9	Kolkata	4,486,679	524,796	263,874	50.28%
10	Howrah	4,841,638	566,314	63,186	11.16%

W.B. has a significant share of Scheduled Castes (SCs) in the State population as compared to the national average. As per 2011 census, 23.5 percent⁷ of total state population consisted of SCs and 5.8 percent of Scheduled Tribes (STs). There are around 60 SC communities in the state with Rajbanshi, Bagdi, Namasudra, Poundra, Bauri and Chamar / Muchi being the prominent ones.

Burdwan, North 24 Praganas, South 24 Paragans, Nadia, Jalpaiguri and Cooch Behar have a high percentage of SC population where as Paschim Medinipur, Burdwan, Darjeeling, Jalpaiguri and Puruliya have a high concentration of ST population. Kolkata, Darjeeling and Dakshin Dinjapur have lower concentration of SC population comparatively. Howrah, Kolkata and Cooch Behar have significantly low ST population.

The gender composition of the state comprises of 947 females per 1,000 compared to 934 females per 1000 males in 2001. Kolkata, Cooch Behar, Malda, West Medinipur and Howrah have a considerably low female population.

⁷ <http://censusindia.gov.in/>

The sub-population of W.B., (Children aged between 0 and 6) is 1,01,12,599 accounting to 11.07 percent of the total population in the state. There has been a decline in child population with respect to the total population of the State from 14.24 percent in 2001 to 11.07 percent in 2011. As per census 2011 W.B. has a literacy rate of 77.08 percent as compared to 68.64 percent in 2001 – an increase of 27.71 percent.

Region	Literacy Rate ⁴			Gap
	Persons	Male	Female	
India	74.0%	82.1%	65.5%	16.6%
W.B.	77.1%	82.7%	71.2%	11.5%

Rural population of W.B. accounts for 68.1 percent of the total population and supersedes the urban population by a large number. As per Census 2011, 34.8 percent and 20.4 percent of the rural population are in the age group of 20 to 39 and 10 to 19, respectively. This indicates that a large pool of people may be potential pursuant of higher education in the next 5 and 10 years. As a result the State Government has made sustained efforts towards developing higher education in rural areas. Implementation of a number of programs including MNREGA, IAY, etc, has been initiated to improve the quality of life of rural people. Apart from this, the State Government's focus on ensuring mid-day meal, child nutrition, literacy and introduction of Kanyashree Prakalpo have reinforced its resolve to uplift the poor. This would have a cascading effect in the rural economy thus generating greater demand for higher education.

Economy

There has been a cumulative growth of 16.07 percent⁸ in the net income of state (at current prices) during 2006-2012, which is marginally lower than the national average growth rate of 17.12 percent⁹ during the same period. The primary sector has been contributing consistently over the years to the state economy while there has been a gradual shift from secondary to tertiary sector. Tertiary sector has witnessed maximum growth amongst the sub sectors, contributing to 60 percent of the total state income in 2011-12.

⁸ www.wbfin.nic.in/writereaddata/EconomicReview11_Part2.pdf

⁹ <http://indiabudget.nic.in/es2010-11/echap-01.pdf>

The State Per Capita Income (at current prices) has increased from INR 25,823 to INR 55,864 between 2006-07 and 2011-12, registering a growth of 16.69 percent.¹⁰ However it is still lower than the national average of INR 60,972 during 2011-2012.

In terms of contribution of individual districts to the overall state economy, districts of North 24 Parganas, Kolkata, Howrah, Hooghly, Burdwan and South 24 Parganas accounted for a major share. The ten most populous district economies in the state contributed to about 75 percent of state income in the financial year of 2012-2013.

¹⁰ www.wbfin.nic.in/writereaddata/EconomicReview11_Part2.pdf

Higher Education Profile

GER across categories, across state

The GER of the state was 17.5 percent¹¹ as compared to the national average of 19.4 percent¹² in 2012. There are around 1.06 crore¹³ people in the age group of 18 to 23 of which around 18.69 lakhs¹⁴ are enrolled in a higher education institute. W.B. has seen a CAGR growth of 5.7 percent¹⁵ in the enrolment figures between 1977 and 2010.

¹¹ AISHE Survery 2012 (Annexure Table 4)

¹² Rashtriya Uchchatar Shiksha Abhiyan

¹³ RUSA and Census 2011 (Annexure Table 3)

¹⁴ AISHE 2012 (Annexure Table 4)

¹⁵ Department of Higher Education, Govt. of W.B.

The male GER of the State is 19 percent and female GER is 15.9 percent¹⁶ in 2012, while the national average for males is 22.8 percent and females is 15.8 percent.¹⁷ 6 percent of total enrolled students in W.B. undergo distance education program as compared to the national

¹⁶ AISHE 2012 (Annexure: Table 4)

¹⁷ Rashtriya Uchchatar Shiksha Abhiyan

average of 5.1 percent. 57 percent of the students enrolled in distance education program are females in W.B. as compared to 47 percent at the national level.¹⁸

W.B. has 0.11 percent of the total students enrolled as PhD students as compared to the national average of 0.22 percent of the total students. The participation of women in post graduate education is higher than the national average where in 54.6 percent of the total post graduate students in W.B. are female as compared to 50.5 percent in India. 20.8 percent of the total students enrolled at diploma or certificate courses in W.B. are female compared to 28.9 percent at the national level.¹⁷

Gender Ratio (Female:Male Enrollment) ¹⁹		
Course	W.B.	All India
Ph.D	0.51	0.66
M.Phil	1.21	1.40
Post Graduate	1.14	1.02
Under Graduate	0.81	0.90
PG Diploma	0.68	0.38
Diploma	0.23	0.36
Certificate	0.74	1.20
Integrated	0.50	0.74
Total	0.80	0.84

GER of SC population in W.B. is 15 percent with a male SC GER of 16.9 percent and female SC GER of 12.9 percent. There are 723 SC female students per 1000 SC male students as compared to the national average of 810. Districts of Bankura, Paschim Medinipur and North 24 Parganas have the lowest SC GER of 6.5 percent, 8.1 percent and 9.9 percent respectively. Jalpaiguri, Uttar Dinajpur and Cooch Behar have high SC enrolment per college in the district at 1120, 955 and 948 students respectively.²⁰

¹⁹ AISHE 2012 as on 31st January 2014

²⁰ AISHE 2012 (Annexure: Table 5)

ST population of the state accounts for 5.8 percent of the state's population.²¹ GER of ST population is at 31.3 percent. Paschim Medinipur and Purulia districts have a ST GER of 8.2 percent and 10.1 percent respectively.

²¹ Source: Annexure Table 6. AISHE 2012.

It has been noted that the first year enrolment numbers in some higher education disciplines exceed the intake capacity of the total number of institutions. There is a great demand in post graduate education which is not met by the number of seats available. There are 71,561 students enrolled in post graduate courses which exceed the intake capacity by 55,826 students. This indicates the interest of the students in pursuing post graduate courses creating a need for additional investments for development of infrastructure. It draws the attention towards setting up of colleges and increasing the capacity of current colleges to meet the demand.

There are in total five universities in the State which cater to various disciplines and are not governed by the Department of Higher Education,

Government of W.B.. They are listed as under:

- Bidhan Chandra Krishi Viswavidyalaya - Provides facilities for the study of Agriculture, Horticulture and Agricultural Engineering.
- Uttar Banga Krishi Viswavidyalaya - This University has been given responsibility for teaching, research and extension education in different branches of agriculture, horticulture, forestry, tea and allied science for creating qualified technical manpower and new technologies to the State Government in order to help the farmers towards increasing agricultural production and improving their economic conditions.
- W.B. University of Animal and Fishery Sciences - The University teaches the subjects like Veterinary and Animal Sciences, Dairy Technology, Fishery Science.
- The W.B. National University of Juridical Sciences - This University mainly provides courses and research facilities in law.
- The W.B. University of Health Sciences - This university was established with the purpose of affiliating, teaching, ensuring proper and systematic instruction, training in Modern system of Medicine, Homoeopathic system of Medicine, Ayurvedic system of Medicine, Unani system of Medicine, Nursing Education, Pharmacy Education, Dental Education, Education on Laboratory Technology, Physiotherapy, Speech Therapy and Education on other Paramedical courses.

Qualitative comparison between various areas of the State

There is a non-homogenous demographic distribution of colleges in the state with Kolkata, North 24 Parganas and Burdwan accounting for 18.9 percent, 13.83 percent and 10.56 percent of total colleges respectively whereas each of the other districts has less than 8 percent of total colleges of the state.²² The districts of Dakshin Dinajpur, Uttar Dinajpur, Purulia, Malda, Jalpaiguri and Birbhum have the lower number of institutions comparatively.

Districts of Purulia, Bankura, Howrah and Paschim Medinipur have higher number of colleges in comparison to other districts but have poorer GER. Hence, these districts need special attention towards improving the quality of institutes as the demand is higher.

²² AISHE 2012 as on 31st January 2014 (Annexure: Table 1)

Burdwan	23.6%	22.1%	22.9%
Kolkata	48.6%	52.2%	50.3%
W.B.	19.0%	15.9%	17.5%

SWOT (Strength Weakness Opportunities Threat)

Strengths

- Legacy of Bengali Renaissance, strong cultural heritage and quest for intellectual pursuits.
- The commitment of the State Government to redefine and realign the contours of higher education system in keeping with the national framework
- The determined common interest of state and the central governments to turn around the current higher education sector of the State
- Strong and committed leadership across all institutions for uplifting of the educational system
- The commitment of the State Government in providing resources for improving higher education through strong civic infrastructure including extensive road connectivity
- Presence of highly developed and vibrant Information Technology and Bio-technology sector with long tradition of research and development

Weakness

- Slow growth rate of the number of quality education institutions across the State
- Non-homogenous development of the districts with respect to setting up of colleges and universities
- Inadequate employment opportunities in high-end industries in the State post college education impacting on the morale of the youth
- No significant public investments in higher education in the recent past
- Large-scale vacancy in teaching and non-teaching posts in various colleges affecting the desirable Teacher-Student ratio

- Lack of educational hubs as in cities like Hyderabad, Delhi, Kota, etc. at pre-college level to prepare the students for admission into the premier institutions of the country

Opportunities

- Presence of the premier institutes like IIT Kharagpur, IIM Calcutta, Calcutta University, Jadavpur University, Presidency University etc. with international reputation in the State
- The importance associated with acquiring higher education as a part of the Bengali culture.
- The Central Government has come up with initiatives like RUSA for re-engineering the higher education system
- The intellectual strength of the state attracting private investments to increase the number of colleges providing quality education
- The increasing interest of the global academic leaders and senior academicians to return to the State and create adequate infrastructural facilities

Threats

- The lack of adequate exposure of students and teachers to international pedagogy methods adversely affecting the up gradation of the curriculum
- The slow progress in the industrial sector contributing lesser to the employment opportunities for the youth leading to a loss of interest in higher education
- The slow pace of research and innovation in the State may affect the brand of education

Academic Information

Institutions

Type	Number of Institutes ²⁴
Central University	3
State University	21
Private University	3
Other degree awarding institution declared by University	1
Deemed University	2
Other Important Institutes	17
Total	47
Government funded	38
Government aided	447
Private	367
Other	459
Total	1311

W.B. has around 1311 institutions as of 2012. The State has a total of 30 universities, of which W.B. University of Technology, Burdwan University and Calcutta University have 22.6 percent, 16.26 percent and 16.79 percent of total colleges affiliated to them respectively.

²⁴ Annexure Table 1. AISHE 2012

The state has 9.7 percent²⁵ of the total colleges for women. The split of colleges in rural and urban areas is comparable. Of the total colleges in the state, 47.7 percent are in rural areas indicating the efforts of state government to create a balance in providing opportunities all across the state.

W.B. has a significant number of general degree colleges but less number of specialised institutions for medical and agriculture courses. The strength of the state lies in the large number of government aided and private institutions accounting for 34 percent and 27.9 percent of the total number of colleges respectively.

Quality

Accreditation of Colleges

71.6 percent of the institutions in W.B. are accredited to some accrediting organisations as compared to the national average of 46.7 percent. These organisations are responsible to monitor the quality of higher education in their respective fields. The focus of the institutes in W.B. towards quality education is evident from these numbers.

Accreditation ²⁶	W.B.	All India
University Grants Commission	467	8,197

Bar Council of India	16	276
Central Council of Indian Medicine	3	109
Central Council of Homeopathy	9	65
Others	102	2,026
Total	939	20,785

The state government is also planning to make NAAC accreditation compulsory for all institutions in the State. As of now 64 institutions have valid NAAC accreditations in the present cycle with Calcutta University acquiring an 'A' status²⁷. There are 271 institutions in the State which have been NAAC accredited in the previous cycle and presently are under the renewal process.

²⁷ NAAC website; <http://www.naac.gov.in/Institutions%20accredited%20%NAAC-with%20validity.pdf>

Faculty Status

The average pupil teacher ratio (PTR) in higher education sector of W.B. is 43:1 in 2012-13²⁸ as compared to the national average of 24:1. The pupil teacher ratio in government sponsored institutions has increased by 26.4 percent in 2012-2013 as compared to previous year. PTR in Government aided and private institutions have increased by 6.1 percent and 6.4 percent respectively in 2012-13 as compared to the previous year. Apart from private colleges, the PTR for all other institutions are above national average.

²⁸ AISHE 2012 and AISHE 2011 as on 31st January 2014

The State had 58.12 female teachers per 100 male teachers²⁹ in 2012-2013 as compared to 50.8 female teachers per 100 male teachers³⁰ in 2011-2012. 43 percent of part time teacher and 46.2 percent of contract teacher are females. There are 2 female Vice Chancellors out of 15 Vice-Chancellors and 11 female Directors out of 102 Directors.²⁹

²⁹ AISHE 2012 as on 31st January 2014

³⁰ AISHE 2011

W.B. has 43,694 total teachers involved in higher education sector of which 62.5 percent are male. Kolkata and North 24 Parganans account for 35.9 percent of all the teachers of state.³¹ SC population amongst teachers account for 6 percent with major contribution coming from Bardhaman, South twenty four parganas and North twenty four parganas (22.8 percent, 15.1 percent and 14.5 percent respectively.)³¹

³¹ AISHE 2012 as on 31st January 2014

Chapter 3: Analysis: Past Performance

Summary

Historically, W.B. has had a very strong foundation of higher education. Bengal has been home to many Nobel laureates, poet-philosophers, great scientists and socio-religious reformers. Calcutta University, Calcutta Medical College, Scottish Church College, Calcutta Madrasah and Sanskrit College are some of the oldest institutions of Asia. Many institutions of national importance like IIT Kharagpur, IIM Calcutta, NIT Durgapur and many more had been set up in the 1900s. However, this intellectual legacy began to fade in the last three to four decades.

The growth of planned expenses in higher education was low till 2008-09 which created a vacuum in the system. Since then, the state government has increased the expenditure on higher education and focused on improving the quality of higher education institutes in the State. The total budgetary provision of the State Higher Education department in 2012-13 was INR 2426,71,91,000 out of which the planned budget was INR 240,00,00,000 as per the annual report of the Department of Higher Education, Government of W.B. in 2012-13.

Five new universities – Kazi Nazrul University, Cooch Behar Panchanan Barma University, Diamond Harbour Women's University, Bankura University and Seacomskills University had been set up in the State in 2012-2013 to improve administration of colleges and also reduce burden on existing affiliating universities. Expansions of access to higher education to a large number of graduating students totaling to more than 67,000 in all honours and more than 75,000 students in general courses on an average every year had been undertaken in 2012-13.

Detailed Analysis

The Department of Higher Education, Government of W.B. has been emphasizing on developing higher education in the state in terms of quality and its outreach. It has tried to increase the number of colleges so as to provide ample opportunities to as many students as possible. Moreover, there have been steps to improvise on the quality of education, specially research and development in the premier institutes of the state.

To improve technical education, projects of setting up two new government engineering Colleges had been taken up under Chief Minister's Priority at Purulia and Cooch Behar. One new Engineering College on self-financing basis had been set up in the academic session 2012-

2013. Till 2012-2013, total number of degree level Engineering & Technology Colleges were at 92 and the total intake capacity was 34305 seats. All these Colleges in the State are AICTE approved and affiliated by WBUT or other State Universities.

In pursuance of the scheme of All India Council for Technical Education (AICTE), the state government had extended the scope of degree level engineering education to the diploma holders through the introduction of 'Lateral Entry Scheme' for admission of the diploma holders in degree Engineering / Pharmacy of the State directly into 2nd Year /3rd semester of 4-Year course from the academic session 2001-2002. Under this scheme, diploma holders from the Polytechnic Institutions with 45% marks in aggregate would get the opportunity for admission after qualifying a State Level Common Entrance Test JELET conducted for this purpose. The intake capacity was up to the extent of 20% of the total approved intake along with the vacant seats of the first year.

Further in 2012-13, funds had been released for extension of boys' hostel as well as central library at JGEC (Jalpaiguri Government Engineering College), horizontal extension of M.S.B. Building at KGEC (Kalyani Government Engineering College), construction of new Boys' hostel building and development of labs at GCETT, Berhampore, construction and extension of Boys' Hostel at GCETT (Government College of Engineering and Textile Technology), Serampore.

The Higher Education system of the country had spared no efforts to identify the needs of the Computer professionals in different sectors and devised variety of programs including Master of Computer Application (MCA). Till the academic session of 1994-95 there were only 3 (three) universities i.e. Jadavpur University, Bengal Engineering College (D.U.) and North Bengal University where MCA course were offered with very limited intake capacity (100 seats). In the academic session of 2012-2013, with the sheer effort of the state government MCA is conducted in 39 Institutions and the approved intake capacity is 2429 seats³².

There has been an improved private sector participation in higher education with the birth of Techno India University, Adamas University and Seacomskills University. Department of Higher Education, Government of W.B. has been strongly promoting the involvement of private sector in order to meet the demand of higher education in the State. There is also greater autonomy provided to the premier institutions like Presidency University and St. Xavier's College which will help the institutions to foster research and development at par with international standards.

³² Annual Report, 2012-2013; Department of Higher Education, Government of W.B.

The Government of W.B. introduced new scholarships like National Scholarship Scheme, Merit-cum-Means Scholarship Scheme and Hindi Scholarship Scheme in order to ensure that no brilliant and capable student is prevented from higher education due to low economic backgrounds.

In terms of quality, the higher education department has had a dedicated cell to monitor the performance of the institutions. The Higher Education Council of W.B. has been aggressively coordinating between the universities. There have been increased efforts to fill up vacant faculty positions in the state. The state government had accorded approval to the creation of 104 posts of Assistant Professors in various teaching departments apart from converting 227 posts from the erstwhile Presidency College, and recruitment process is underway. 188 posts of non-teaching employees from Presidency College structure were to be converted to the Presidency University structure. In other universities like Jadavpur University, Kalyani University, Vidyasagar University and many others a commendable number of teaching posts had been created and new courses have been introduced in the year 2012-13. Moreover, the state government focused to develop specialized universities like Vidhan Chandra Krishi Viswavidyalaya, W.B. National University of Juridical Sciences etc.

To improve the quality of Research and Development, Ford Foundation, UGC, DST - GOI, CSIR, etc, had funded special research and academic projects in top government colleges. Presidency College alone had received nearly INR 5 crores. Libraries, Laboratories and Computer systems have been upgraded to enhance research and other academic facilities.

W.B. has an Institutional Density (ID) of 12.7 and College Population Index (CPI) of 12³³ as compared to the national average of 25.³⁴ The PTR (Pupil Teacher Ratio) of the State was 43:1 in 2012 which is considerably higher than the national average of 24:1.³⁵

The major expenditure component of the state is the pay packages of the faculty. Infrastructure construction and maintenance account for the second highest component indicating the development infrastructure of the colleges to cater to a larger pool of students.

Promotion of Art and Culture	7,92,18,000	4,14,30,000	11,91,98,000/-	4,14,30,000/-
Surveys and Statistics-Gazetteer & Statistical Memories-3454-02-110-NP-002	99,24,000	NIL	1,21,25,000/-	5,55,000/-
TOTAL	1724,29,90,000	220,00,00,000	2186,71,91,000	240,00,00,000
GRAND TOTAL (Non-Plan + Plan)	1944,29,90,000		2426,71,91,000	

Non-Plan expenses have been higher than the Plan expenses in the budget of higher education in W.B.. There has been a steep increase in Non-Plan expenditure from 2008-09 to 2009-10 which is due to the effect of the 6th Pay Commission. Also the recurring increase in the following years may be associated with the recruitment of new faculty in the higher education sector.

Calcutta University received the maximum grants from the government in the year 2012-2013 at INR39.21 lakhs followed by Burdwan University at INR 28.09 lakhs. W.B. State University, The W.B. University of Health Sciences and Burdwan University have incurred higher expenses than their total annual income.

Year ³⁶	Education Budget as percentage of total Budget	Higher Education Budget as percentage of Education Budget
2000-2001	15.1%	14.2%
2001-2002	14.8%	13.9%
2002-2003	15.4%	14.2%
2003-2004	13.6%	13.9%
2004-2005	12.8%	13.4%
2005-2006	14.8%	12.9%
2006-2007	15.9%	11.9%
2007-2008	15.0%	12.2%
2008-2009	15.6%	12.3%
2009-2010	17.1%	14.0%
2010-2011	17.9%	14.0%

³⁶ Higher Education Department, Government of W.B.

W.B. State Higher Education Plan; Government of W.B.

In the early 2000s, the expenditures incurred in higher education were much constrained as compared to the recent years. Earlier, higher education used to account for around 14 percent of total education budget. The current improvement in budget allocation determines the dedicated focus of the state government towards the State's higher education sector.

Chapter 4: Preparation of the State Plan

Methodology

The Higher Education Plan of W.B. has been prepared in accordance with the guidelines of National Higher Education Mission of RUSA under the Ministry of Human Resource and Development (MHRD). It focuses on the holistic development of the higher education sector of the state in accordance with the national targets mentioned in the mission.

All data pertaining to universities and institutions have been acquired from AISHE survey for 2012-13. There were some institutions which had not responded in the survey. Student enrolments from such institutions have also been factored in while calculating the enrolment of the State. An average student per college for each district was calculated to estimate the enrolment figures of such institutions. There is a mention in the RUSA plan of 11.7 percent of the State's population to be in the age group of 18 to 23 years. This population along with the enrolment numbers of each district have been used to determine the Gross Enrolment Ratio (GER) across districts, across gender and across categories.

The GER target of the country as per the RUSA Plan is set at 25.2 percent by 2017-18 and 32 percent by 2021-2022. This could be achieved in the State by either increasing the existing infrastructure of the colleges or by constructing new colleges. The present GER of W.B. in the higher education sector is at 17.5³⁷. This has been calculated by taking into account enrolments across all types of institutions, namely – government, government aided and private. Also different kinds of enrolments like – regular, distanced and self financed have been considered.

The development and formulation plan of institutions have been designed based on the principles of the RUSA plan. The plan determines parameters for different components under which funding would be provided in higher education institutions. There have been some exceptions and alterations made while selecting institutions eligible to receive funds. Details of such institutions are mentioned in the detailed plan section.

Autonomous colleges have been identified for up gradation to Universities based on the guidelines as laid down in RUSA plan. Clustering of colleges has been done geographically to implement the formulation of universities based on clusters. College Population Index (CPI - No. Of Colleges per lakh student) has been used to identify the clusters in which universities need to be created. Infrastructure grants to universities

³⁷ Annexure Table 1; AISHE 2012.

have been decided on the basis of the number of affiliated colleges and the demand they are supposed to meet in their respective districts. The components have been prioritized as per the State's needs and it had been determined that the effort and investments required to construct new model colleges were lesser than converting existing colleges into model degree colleges.

The districts with high number of Educationally Backward Blocks, low GER and greater proportion of SC population have been considered for creation of new model degree colleges. The allocations of funds also take into account the female GER of the district. These parameters would ensure development of socially challenged and increase female population of the state. The districts weak in professional and technical education have been identified through the absence of technical institutions. Majority of the government and government aided colleges of the districts have been identified to offer funds to develop infrastructure of the colleges.

Faculty improvement initiative has been considered for all the State Universities including the two newly proposed universities. The Pupil Teacher Ratio of the State in the higher education sector is 43:1 against a national average of 24:1. The state government has already initiated a major drive to recruit assistant professors through PSC (Public Service Commission) and WBPSC (W.B. Public Service Commission). There are in total 2700 assistant professors under the recruitment process which is entirely being funded by the state government. As a result Component 10 - Faculty Recruitment has been omitted from the component budget list.

All State Universities would be offered funds for quality improvement and introduction of vocational courses. This would ensure that higher education is made more employable and courses are taught as per the job demands in the industry. Research and innovation would also be emphasised to draw efforts in making the State a research hub of the east.

Stakeholder Consultation

The State Higher Education Plan was prepared in consultation with a number of eminent academicians and personnel from the entire Higher Education sector of the State. There were multiple meetings conducted with the help of W.B. State Council of Higher Education and Department of Higher Education, Government of W.B.³⁸. There were representations from majority of the higher education institutions of the State, including institutions which are managed by the Minorities Department, Government of W.B.. The following meetings were conducted with a list of the participants:

³⁸ Check Annexure for Minutes of Meetings

Meeting with Department of Higher Education, Government of W.B.

- Mr. Partha Chatterjee – Minister in Charge, Department of Higher Education, Government of W.B.
- Mr. Asish Banerjee – Minister of State, Department of Higher Education, Government of W.B.
- Mr. Vivek Kumar, IAS – Principal Secretary, Department of Higher Education, Government of W.B.
- Dr. Jiban Chandra Chakrabarty, IAS – Addl. Secretary, Department of Higher Education, Government of W.B.
- Ms. Madhumita Ray, IAS – Addl. Secretary, Department of Higher Education Government of W.B.
- Mr. Shiladitya Basuray, WBCS (Executive) – Joint Secretary, Department of Higher Education, Government of W.B.
- Mr. Amit Sanyal, WBCS (Executive) – Special Secretary, Department of Higher Education, Government of W.B.
- Mr. T.K. Ghara – Joint Director, Department of Higher Education, Government of W.B.
- Mr. Krishnendu Basak, WBCS (Executive) – OSD, Department of Higher Education, Government of W.B.
- Prof. Malayendu Saha – Vice Chairman, W.B. State Council of Higher Education

Meeting with the W.B. Education Commission

- Prof. Samir K. Brahmachari – Chairman, W.B. Education Commission
- Amit Sanyal – Additional Secretary, Dept. of Higher Education, Govt. of W.B.
- Prof. Abu T. Khan – Vice Chancellor Aliah University
- Prof. Sanghamitra Banerjee – Professor, Indian Statistical Institute
- Dr. John Felix Raj – Principal, St. Xavier's College Kolkata
- Swami Shubhakarananda – Ramakrishna Mission Belur Math
- Swami Suvirananda - Ramakrishna Mission Belur Math
- Ms. Susmita Bhattacharya Chatterjee - Former Principal, St. Thomas Girls' School, Kolkata
- Ms. Supti Pande – Mass Education Expert
- Ms. Renu Barman (Singha) - Educationist
- Mr. Vivek Kumar – Principal Secretary, Department of Higher Education, Government of W.B.
- Dr. Prabir Kumar Das – Member Secretary, W.B. State Council of Higher Education

Meeting with Selected College Principals

W.B. State Higher Education Plan; Government of W.B.

- Chandrakona College
- Kalyani Govt Engineering College
- Sorojini Naidu College
- Barasat Government College
- Mekhliganj College
- Hoghly Moshin College
- Institute of Engineering and Management
- Salesian College Darjeeling
- Heritage Institute of Technology
- Asutosh College
- College of Leather Technology

Meeting with Selected Principals of Christian Minority Colleges

- St. Xavier's College
- Scottish Church College
- St Joseph College, Darjeeling
- Bankura Christian College
- St. Pauls College
- Serampore College
- Loretto College
- Salesian College

Chapter 5: Five-year Perspective Plan

The prime target of the Department of Higher Education, Government of W.B. is to reach a GER of 25.2 percent by 2016-17 without compromising the quality of education. In order to achieve the target, there would be focused homogenous development of education system in all the districts. The current plan has been laid out for a period of three years which are the remaining years of current 12th five year plan. The plan envisages creation of new universities, up-gradation of existing university infrastructure, setting up of new colleges in the context of current CPI, population of the district and the demand for higher education needs.

The State Government's determined efforts to improve the higher education sector of the State have generated aspirations among people and created the need for state of the art facilities. Aggressive recruitment of faculty have already been initiated where 2,700 assistant professors are being recruited through PSC (Public Service Commission) and WBPSC (W.B. Public Service Commission).

A model has been used to calculate the number of new colleges which are to be created based on the required incremental capacity of the State to reach the national GER target. An estimated number of 2000 seats have been assumed as the ideal enrolled number of students that every college in the state needs to have. Based on this number it has been calculated that 137 new colleges³⁹ are required to be constructed and infrastructure in the existing colleges need to be raised to accommodate an additional 757,758 students in the State. It has been observed that first year enrolments in most colleges are in excess of the total capacity of the institution. This increase in numbers has also been considered while determining the target of the State.

W.B. Higher Education Targets	
Number of seats required	28,93,337
Current Estimated Enrolments	18,69,234
Additional Requirements	10,37,607

³⁹ Source: Annexure table 8, W.B. Higher Education model for Incremental capacity

W.B. Higher Education Targets	
Current Students per College	1422
Current Number of colleges	1311
Ideal Number of students per college	2000
Incremental capacity	7,57,758
Number of new colleges	139

The Department of Higher Education, Government of W.B. has given special emphasis on creation of new universities by up-gradation of existing autonomous colleges and by formation of college clusters based on their geographic locations. This would help in efficient governance of the higher education institutions in the State. Districts with low GER and high number of Educationally Backward Blocks would be funded to develop model degree colleges. These institutions would create an influence and set benchmarks for nearby educational institutions to achieve and eventually encourage them to transform. Major focus would be made on professional colleges and vocational education as they make education employable and provide greater opportunities to the students. Plans are being made to create a B.Ed University to facilitate faculty training institutes to impart quality training which would help the teachers to develop their skill sets and understand the aspirations of students in the State. Research and development in the State would be improvised with the increased grants and by recruitment of internationally renowned faculty for the leading institutions.

Activity	2014-15	2015-16	2016-17	Total (in crores)
Creation of Universities by way of Up-gradation of Existing Autonomous Colleges	10	10	10	30

The Government of W.B. has set up an Education Commission to prepare the roadmap and Vision 2020/2030 for the entire educational sector of W.B.. This Commission consists of eminent scholars and experts from the education sector of the State. The Education Commission report has been incorporated as an expert advice while planning the expansion of the colleges and universities.

Chapter 6: Snapshot of the Annual Plan

Priority Areas

The Annual Plan has been based on a micro level understanding of the status of every institution and district of the state. This has helped to design the fund allocation and policies in a detailed manner. Prioritization has been given to certain components over others based on the immediate need of the State. The following components have been listed out in order of priority basis which funds have been desired:

Component 1 – Creation of Universities by way of up-gradation of existing Autonomous Colleges

Two institutions have been identified which would be converted into Universities – St. Xavier's College and Ramakrishna Mission Vidyamandir. An amount of five crores per institution have been desired in the present year totalling to ten crores.

Component 2 – Creation of Universities by conversion of colleges in a cluster

There are two proposals which have been worked out with plans of implementation of both in the present year. Raiganj College identified as the lead college with five cluster colleges – Meghnad Saha College, Sri Agrasen College, Islampur College, Chopra College and Surendranath College. David Hare Training College identified as the lead college with seven cluster colleges – Institute of Education for Women, Jagdish Chandra Basu Shikshak Mahavidyalaya, Calcutta Girls B.T. College, R.K. Mission Shiksha Mandir, Shri Shikshayatan College, St. Xaviers College and Satyapriya Roy College of Education. Each cluster has desired an amount of five crores with a total of ten crores for the first year.

Component 3 – Infrastructure Grants to Universities

Seven Universities would be offered a grant of fifteen crores each for the three year period. The Universities are – Gour Banga University, Sidhu Kano Birsa University, W.B. State University, Diamond Harbour University, Cooch Behar Panchanan Burma University, Kazi Nazrul University, Bankura University. These universities have been shortlisted on the basis of the qualification criteria as mentioned in the RUSA Plan.

Component 6 – New Colleges (Professional)

Cooch Behar Engineering College would be a new professional college that would be constructed in the district. An amount of ten crores would be invested in the present year for construction.

Component 4 – New Model Colleges (General)

Ten new model colleges would be constructed by the Government of W.B. as government colleges. The identified areas are – Basirhat, North Twenty Four Parganas; Bongaon, North Twenty Four Parganas; Arambag, Hoogly; Ranihati, Howrah; Rampurhat, Birbhum; Dhantala, Nadia; Birpara, Jalpaiguri; Dinhata, Cooch Behar; Dhupguri, Jalpaiguri; Dakshin Dinajpur. Three crores thirty three lakhs would be invested for each college in the present year totalling to thirty three crores and thirty lakhs.

Component 7 – Infrastructure Grants to Colleges

Mostly all government and government aided colleges of the State would be offered a grant of half a crore in the present year. There are a total of 497 government and government aided institutions in the State. A total grant of 994 crores has been desired.

Component 8 - Research Innovation & Quality Improvements

Four state aided universities would be offered sixty crores seventy lakhs in total. Jadavpur University would be offered thirty three crores, IISWBM will be offered five crores seventy lakhs, twelve crores will be offered to Calcutta University and ten crores will be offered to RKMVU. This totals to sixty crores seventy lakhs over a period of three years.

Component 12 – Vocationalisation of Higher Education

All nineteen state aided universities would be offered a total of twelve crores seventy three lakhs for the present year. This has been segregated as sixty seven lakhs for each university in the present year. Vocationalisation would help in ensuring employability and would also encourage the much needed private sector participation in the higher education sector.

Strategy

W.B. Government in the present five-year plan period has created four new state aided universities and two private universities in different districts. The new universities would help in increasing the enrolments in the respective districts and shall also assist in efficient administration. The state is also focusing on providing autonomy to premier colleges like Presidency College which is intended to improve the standards of the colleges. Providing greater autonomy would allow institutes to invest in infrastructural and administrative reforms and also update its academic curriculum. Greater autonomy would reduce political interferences in the administrative procedures and improve the quality of education imparted. Private Sector is being encouraged to establish its educational institutions under the Private University Bill and Private College Bill. Initiatives by NSDC in collaboration with the state government will promote vocational education in the State which is very important in terms of generating employment. Multiple activities having diverse domain are being conducted leading to a holistic development of higher education in W.B..

Sources of Funds

Source	Funds expected (INR) (in crores)
Rashtriya Uchcha Shiksha Abhiyan	910.455
Grants from State Higher Education Department	490.245
Grants from other State departments	
Grants from Central Departments	
Raised from private sector, institutions, foundations and Organizations	0.00
Resources raised by higher education institutions from internal sources like student fees, examination fees etc	0
Total	1400.7

Targets & Financial outlay for 2014-15

Component	Number/ Target	Financial Outlay 2014-15 (in crores)
Up gradation of existing autonomous colleges to Universities	2	10
Conversion of colleges to Cluster Universities	2	15
Infrastructure grants to Universities	4	15
New Model Colleges (General)	10	33.3
Upgradation of existing degree colleges to model colleges	0	0
New Colleges (Professional)	1	10

Component	Number/ Target	Financial Outlay 2014-15 (in crores)
Research, innovation and quality improvement	18	3.6
Equity initiatives	0	0
Faculty Recruitment Support	0	0
Faculty improvements	19	3.23
Vocationalisation of Higher Education	19	12.73
Leadership Development of Educational Administrators	5	5
Institutional restructuring & reforms	2	2
Capacity building & preparation, Data collection & planning	1	5
Management Information System	1	2
Total		642.91

Prerequisites: Essential commitments from the State

S. No.	Prerequisite	State's Response	Current Status of Work Done
1	State Higher Education Council	Already in Existence	In-charge of Education Commission
2	Financial Contribution to Higher Education as a % of GSDP	0.34 % in 2012-13	Has been committed by the State to achieve an increase of 0.35% of GSDP by 2016-17
3	State Perspective Plan	In-progress	First draft completed. Final Version in progress
4	Agreement to create separate fund for RUSA	Yes	Steps already initiated. Bank account opened
5	Filling Faculty Vacancies	Yes	Recruitment in progress through PSC and WBCSC

W.B. State Higher Education Plan; Government of W.B.

6	Accreditation Reforms	Yes	Institutions already in process of filing affiliations
7	Affiliation Reforms	Yes	State Higher Education Council has taken initiation to appraise the Universities on affiliation norms
8	Academic & Examination Reforms	Yes	State Higher Education Council has taken initiation
9	Governance Reforms	Yes	Training calendars have been processed for the training of all administrative personnel of colleges and universities by phases under the supervision of the WBSHEC
10	Institutional Governance (Administrative) Reforms	Yes	The necessary amendments have been initiated in the relevant Acts & Rules by the State and WBSHEC

Chapter 7: Detailed Plan

Overview of the major initiatives

The Government of W.B. has set a target to revive the academic heritage of the State and make it an educational hub of the east. Determined and focused efforts are being made to bring about major improvisations in terms of governance, access, employability and quality. Aspirations of students are being encouraged by introduction of non conventional courses which would immensely increase the number of options that a higher education student would have. International institutions have been set as benchmarks and exchange programs are being initiated not only between students but also between teachers. Enhanced usage of ICT tools are being implemented to bridge the distance between national and international institutions and also between urban and remote institutions.

Governance

The administration of higher education institutions is an extremely crucial element for its success. It has been observed all over the world that the best of the institutions have impeccable administrations that act as a support system of that institution. The Department of Higher Education, Government of W.B. has taken due cognizance of this point and have directed major efforts to implement administrative reforms in the entire higher education sector of the State.

There were seven new universities created in the present five year plan, four of them being state government sponsored, namely Kazi Nazrul University, Cooch Behar Panchanan Barma University, Diamond Harbour Women's University, Bankura University and three private universities which are Techno India University, Adamas University and Seacomskills University. Apart from creating these Universities, the higher education department also laid focus on conversion of existing autonomous institutions into universities.

St. Xavier's College and Ramakrishna Mission have been suggested to be converted into universities as per the criteria laid down in the RUSA plan. Both these institutions have been into existence for more than fifteen years and have more than two thousand students enrolled. Land allotted to them is in excess of fifteen acres and both have acquired an "A" grade accreditation from NAAC. UGC has conferred CPE (College with Potential of Excellence) status to both the institutions. Most of the norms as mentioned by RUSA are met by the institutions barring PTR

and teaching - non teaching ratio. An amount of five crores have been desired for each of the institutions for the remaining three years, totalling to thirty crores for both the institutions.

The State Government has also suggested creating universities by clustering colleges as per their geographic locations. In this regard Raiganj College has been identified as the lead college along with a cluster of five other colleges – Meghnad Saha College, Sri Agrasen College, Islampur College, Chopra College and Surendranath College. All these colleges have been into existence for more than fifteen years and have a combined enrolment of more than two thousand students. Most of the colleges are NAAC accredited and are within a physical proximity of twenty to thirty kilometres from the lead college. There are some norms which the colleges do not fulfil like autonomous and CPE status, PTR and teaching non teaching ratio, post graduate programs in some colleges, etc. Five crores is being suggested for the first and third year, while ten crores is being suggested for the second year for the clustering and creation of university. A total of twenty crores has been desired over a period of three years.

There is also a suggestion of clustering B.Ed colleges and creating a university to ensure better administration and effectiveness of the courses. David Hare training college has been identified as the lead college with a cluster of seven B.Ed colleges namely, Institute of Education for Women (Hastings College), Jagdish Chandra Basu Shikshak Mahavidyalaya, Calcutta Girls B.T. College, R.K. Mission Shiksha Mandir, Shri Shikshayatan College, St. Xaviers College and Satyapriya Roy College of Education. The lead college has adequate infrastructure and concurs to share existing facilities in partner colleges and undertake common ventures in promotion of access, equity & quality education. RUSA norms are met barring the same ones as mentioned above. A similar total of twenty crores has been desired over a period of three years.

Access

The higher education department has meticulously planned to construct new model colleges in strategic locations to ensure the access of higher education sector of the State. The districts which form a part of the Educationally Backward Blocks as identified by UGC, have been taken into account. A professional college in Cooch Behar has been suggested as the district lacks a professional government college. There is a high proportion of socially and economically backward population with a low female and SC/ST GER. A total of thirty crore has been desired over a period of three years with an equal distribution of ten crore every year.

There are ten new model degree colleges planned in various Educational backward districts of the State. The identified areas are – Basirhat, North Twenty Four Parganas; Bongaon, North Twenty Four Parganas; Arambag, Hoogly; Ranihati, Howrah; Rampurhat, Birbhum; Dhantala,

Nadia; Birpara, Jalpaiguri; Dinhata, Cooch Behar; Dhupguri, Jalpaiguri; Dakshin Dinajpur. A total of hundred crore has been desired for the creation of these colleges over a period of three years. Each college would be offered three crore thirty three lakhs every year for three years.

W.B. has a GER of 17.5 percent which has to be increased to 25.2 percent by 2016-17 as per the RUSA mission. This shall require 28.9 lakh seats in the state of which 18.7 lakh seats are already present. The additional requirement of 7.6 lakh seats in the state shall be generated by increasing the capacity of higher education institutions and setting up new institutions. Currently, there are around 1311 institutes which have to be increased to around 1450 institutions. Moreover, the average number of students per college is around 1422 which has to be increased to 2000. The addition of the new colleges and increment in the seats shall help attaining sufficient seats to reach the target GER of 25.2 percent.

Employability

Education in the modern world has to be linked to employability. There has to be a complete connection between subjects covered in educational institutions and the demand-supply scenario in the job market. The higher education department has encouraged industry academia linkage which would help to ensure that graduating students are “industry ready”.

Extremely competitive job market has driven the state government to introduce the new vocational courses. These new innovative courses would help in meeting the job demands and also address the drop-out rate of the State. These new vocational courses are being initiated in six community colleges that are approved by UGC. Some of the courses are – ICT applications, Organic Farming & Food Processing, Automobile Servicing, Retail Management, Travel & Tourism Management, Media Management, Electrical & Electronic equipment servicing, IT related courses, etc.

Vocational courses would be implemented in all the nineteen state aided universities and a total amount of thirty eight crore are being requested for. This amount would be spread over three years with sixty seven lakhs suggested for each university every year for three years.

W.B. is a key human resource hub in India, with the state being fourth most populous and second most densely populated regions in India. More than forty percent of the employment is in agriculture and allied services and more than ninety percent of the population is in the informal sector. In a recent NSDC report it has been estimated that labour force is expected to grow within the State for the period 2012-2022. The State is expected to witness significant growth in unskilled and informal job segments that would accommodate workers displaced from agriculture. In the near future, W.B. would have the potential to be a source for trained and quality manpower for the rest of India.

Quality

The Department of Higher Education, Government of W.B. has taken due cognizance of the importance of imparting quality education in the higher education sector. Major initiatives in terms of recruitment of faculty to achieve PTR targets have already been initiated. A total of twenty seven hundred assistant professors are being recruited through the help of Public Service Commission and W.B. College Service Commission.

The state government has identified four universities and proposed a grant of five crores per university every year for the next three years. These universities are – Calcutta University, Burdwan University, University of North Bengal and W.B. State University. All these universities are more than fifty years old with Calcutta University been accorded “A” grade by NAAC. Calcutta University and Burdwan University have more than hundred affiliated colleges and University of North Bengal has around sixty affiliating colleges. All these Universities would immensely benefit from the infrastructure grants being offered for upgradation. A total of sixty crore has been desired as infrastructure grants for upgradation of the mentioned universities. Each university would be offered five crores each year for the next three years.

There are in total five hundred and twenty three government and government aided colleges in the State. They are segregated as the following:- Government degree college – 20; government B.Ed college – 7; government B.P.Ed college – 4; government art college – 1; government technical and engineering college – 6; government polytechnic college – 38; government aided degree college – 427; government aided B.Ed college – 18; government approved university college – 2. All these colleges would be offered a grant of 1 crore for the first year and then fifty lakhs for the next two consecutive years. A total of 1046 crores have been desired for up-gradation of existing colleges.

The higher education department has focused majorly on improving the research and development infrastructure of the higher education institutions. Constant efforts are being directed towards creating a research and innovation hub in the State. A total of twenty crores and twenty lakhs has been desired over a period of three years in the current plan period. All the existing sixteen state aided universities would be offered twenty lakhs each year for three years. Presidency would be offered three crores thirty three lakhs each year for the next three years. Being a renowned institution and an institution of repute world-wide, Presidency University was accorded the university status in July 2010. This special grant for research and innovation would be offered to Presidency to ensure that the institution continues to excel in all its disciplines and is able to attract the best faculty from all over the world and set itself as a benchmark institute for the other institutions of the State to follow.

The Department of Higher Education, Government of W.B. has provisioned a total amount of nine crore fifty lakhs towards faculty improvement. This is over and above the already sanctioned amount for recruitment of 2700 assistant professors which is already underway. All the state

universities would be offered sixteen lakhs sixty thousand each year for the next three years. This would enable them to bring about quality improvements in their faculty and ensure that the brightest of the students are nurtured in the best of ways.

The higher education department has also provisioned a total of ten crores towards leadership development for educational administrators. Five institutes have been identified to receive this grant. Three staff colleges in Jadavpur University, Calcutta University and Burdwan University along with Administrative Training Institute and W.B. State Higher Education Council would be offered one crore in the present year and then fifty lakhs each for the next two consecutive years.

Two institutions, W.B. State Higher Education Council and W.B. College Service Commission would be offered one crore each in the first year and then two crores each in the next two consecutive years for implementing institutional restructuring and reforms in the higher education sector of the State. There has also been a provision of five crores and two crores respectively for capacity building, data collection and planning along with implementation of Management Information System in the higher education sector. These investments would ensure incredible quality reforms among all the higher education institutions of the State.

Detailed component-wise allocations

The higher education department has provisioned for a total of INR 1400.7 crores in the current five year plan. The State's share would be 35 percent totalling to INR 490.2 crores and RUSA's share would be 65 percent totalling to 910.455 crores.

Minutes of Meetings with Selected College Principals held on 18th February, 2014 at IACS, Kolkata

Background:

The Educom Chairman held an interactive meeting with the heads (or their representatives) of the following colleges in and around Kolkata:

1. Chandrakona College
2. Kalyani Govt Engineering College
3. Sorojini Naidu College
4. Barasat Government College
5. Mekhliganj College
6. Hoghly Moshin College
7. Institute of Engineering and Management

8. Salesian College Darjeeling
9. Heritage Institute of Technology
10. Asutosh College
11. College of Leather Technology
12. MUC Women's College

The above colleges span both the general degree and engineering colleges; as also government colleges, aided colleges and private colleges.

The following districts were covered during the consultation:

- North 24 Parganas
- Cooch Behar
- Kolkata
- Hooghly
- Darjeeling
- Nadia
- Paschim Midnapur

Some Overarching Features and Issues for Colleges:

- Most of the colleges make multiple use of infrastructure with the same building being utilized for morning, day and evening colleges.
- There is an over-burdening of colleges with students (usually 3000 to 4000), without commensurate number of available full-time faculty members.
- There is no mechanism in which the college can restrict admission. In some cases, more than 2000 students are admitted annually in the pass course itself.
- Delinking of pass course from the colleges if possible
- Politicization of college education is the single biggest problem that needs to be removed in order to inculcate excellence.
- The current structure of college Governing Bodies is anomalous. In some cases, for small colleges, with 6-7 faculty members, often 4-5 of them are members of Governing Body. Restructuring of the Governing Bodies is a matter to be explored.
- Autonomy of Principals need to be augmented substantially.

- The current practice of Teacher In Charge in colleges (where Principals are not in position) need to be replaced by a designation such as Principal in Charge.
- Coping with student absenteeism
- Lack of coordination of classroom teaching with the examination system
- Coping with the problem of 'idle teachers' in certain disciplines i.e. teachers who do not have adequate classes due to lack of students.
- College principals should be freed from the responsibility of conducting student union elections.

Inputs from Colleges:

1 Chandrakona College

- a. There are 12 departments, 7 running courses, 22 sanctioned posts and 8 of such incumbents in position. The student strength is more than 3000. Thus, there is a discrepancy of teacher number vis-à-vis students and also a large number of positions that are not filled up.
- b. Idle teachers in some departments exist

2 Kalyani Government College

- a. Acute faculty shortage (43 incumbents in position out of 87 sanctioned posts)
- b. It is felt that there should be a differential treatment given to engineering colleges vis-à-vis general degree colleges

3 Sorojini Naidu College

- a. Erosion of brand as a result of migration of the college from Calcutta University to W.B. State University
- b. Vocational course on communicative English is run very successfully in the college which is proposed to be wrapped up by the university.
- c. There is a need for good quality teachers
- d. Programmes for English skill improvement should be taken up
- e. Adequate stress should be given to inter-disciplinary topics
- f. Online knowledgebase in college should be developed
- g. Appropriate measures should be adopted for involving parents in the college education and teaching-learning processes.

4 Barasat Government College

- a. There is an increment of 10% seats for SC and ST plus 17% increment for OBC seats each year. This has had a detrimental effect on the overall educational standard of the college with regard to worsening of student-teacher ratio.
- b. Teacher exchange programme between colleges need to be practiced in order to address the diverse and specialized faculty needs.
- c. Heritage government colleges need to be upgraded appropriately through grant of autonomy.
- d. Introduction of uniform syllabi for undergraduate level should be done. Currently, there is a significant degree of dichotomy.
- e. Provision of e-journal facility for PG teaching colleges
- f. Provide mechanism of compulsory training in industry as part of the college curriculum
- g. Resort to online admission procedure
- h. Switch to five day week with abolition of the off day concept.
- i. Students Union should be renamed as Student Council and its functions made more focused
- j. Currently, the financial powers of the government college functionaries are extremely out-dated (Rs 15000 for Principals; Rs 25,000 for DPI; Rs 30,000 for Secretary; beyond which concurrence of the Finance Ministry is required). The financial powers of the government college Principals should be enhanced.
- k. Student fees should be restructured so as to make them competitive with the present trends in the market
- l. Specialized centres in colleges such as on chromosome biology, medicinal and aromatic plants etc should be established.
- m. A government degree college should be set up in the South 24 Parganas district.

5 Mekhliganj College

- a. There is an acute shortage of teachers. There are only 4 teachers in all for 5 honours and 8 pass course subjects.
- b. The college has a predominance of students from the weaker sections of the population; and thus is instrumental in delivering inclusive education.
- c. The college has no infrastructure and sanitation facilities.

6 Hooghly Mohsin College

- a. There is a fading glory of the government colleges as they are no longer the preferred destination for students and teachers.

- b. The general morning course which sees a poor attendance (around 25%) nevertheless ruins the ambience of the college. In contrast, the UG honours and PG classes attract good students.
- c. 50% of the teachers are committed and there is no mechanism to differentiate between performers and non-performers in the regular performance appraisal. This is an undesirable trend.
- d. The scope of curriculum planning at the college level is very limited. Present curriculum structure lacks multi-disciplinary approach
- e. Institute-institute and institute-industry partnerships need to be developed
- f. University examination schedules are quite long and often hampers the teaching schedule in colleges

7 Institute of Engineering and Management

- a. There is no major problem regarding faculty number, student enrolment etc.
- b. Administrative intervention into academic matters is an impediment
- c. Assignment solving for all students should be made mandatory
- d. The entry level of faculty should be regulated so that the overall motivation profile of the faculty in engineering colleges is increased and remains high. This is an essential pre-requisite for improving quality education.

8 Salesian College Darjeeling

- a. This is one of the oldest missionary institutions that has no public funding
- b. State government support is required in order to retain quality
- c. New models of self-financing need to be evolved. It is felt that courses that have larger market requirement should be self-financed while those which have academic and/or social-good requirement should be state financed.
- d. Digitization of university procedures shall energize the educational system substantially.

9 Heritage Institute of Technology

- a. There is no funding problem as the financing is through trustee board. Also, faculty number, faculty retention and student teacher ratio are no major problems
- b. Lack of funding in research is an impediment. As this is a private institution, it is not considered at par with government institutions while competing for funds from government agencies.

- c. Fees of the college are around Rs 3 lakhs per year. This is lower compared with the other states which charge around Rs 6 lakhs per year. 10% free studentship is provided which is equal to the number of students in the management quota.
- d. Going by the national average, the requirement of engineering seats in W.B. is 1.38 lakhs, while the current availability is only 38,000 (i.e. one-fourth the number). In spite of this, 16,000 seats i.e. 50% of the available remains vacant. It is important therefore to understand and determine the cause of this discrepancy.
- e. Lateral entry into undergraduate engineering programmes is fraught with inconsistency. Entry from polytechnics has been a key problem as often such students are not equipped with the requisite background in mathematics. The cause of this is probably the student counselling process, where adequate clarification about the requirements of various engineering disciplines is not provided.
- f. Many accreditation anomalies exist that need to be solved.

10 Asutosh College

- a. There are around 6000 students with 24 honours subjects and 4 PG subjects plus diploma, distance and certificate courses
- b. There is a reasonable faculty and non-faculty shortage out of the 58 sanctioned positions for faculty.
- c. Rationalization of fee structure in the colleges is required
- d. The concept of community colleges and meta colleges to be evolved in the state
- e. Courses should have trans-disciplinary and cross-disciplinary nature along with presence of digital learning initiatives.
- f. Evaluation linked to teaching learning processes need to be evolved
- g. Autonomy to be given to colleges to build upon a framework syllabus that the affiliating body shall provide
- h. Evolve the concept of cluster colleges
- i. Introduce newer subjects at undergraduate level.
- j. Academic auditing in colleges
- k. Newer genera of administrative personnel to manage college affairs such as finance, planning, student affairs, welfare etc.

11 College of Leather Technology

- a. Mechanism for intra and inter-university credit transfer system should be put in place

12 MUC Women's College

- a. Absence of coordination between teachers and examination system proves to be detrimental
- b. It is required that the actual span of academic year during which classes are held be substantially increased
- c. The practice of periodic tests should be encouraged
- d. Detailed statistics for various educational indicators should be developed and appropriately disseminated
- e. Motivational programmes such as 'best teacher award' could be instituted
- f. Research should be given its rightful status in undergraduate level
- g. Digital class rooms should be made a routine in all colleges

Some Recommendations

- **Rationalizing Entry into Colleges:**

- a. Creation of job opportunities after the high school level so that smaller number of students comes for joining the pass course in colleges.
- b. Setting up of an All Bengal Meta University where students desirous of pursuing pure pass course might register and undertake courses without attending classes.

- **Rationalizing Fee Structure:**

- a. Differential fee structure might be conceived where fees would be less for students who wish to undertake courses in distance/e-learning mode while higher fees would be charged for those who attend classes physically. This would enable improvement in ambience in colleges.
- b. The financial subsidy model currently followed in colleges need to be revised. As the government is unable to cater to a pay for the vast number of colleges, it is suggested that only a few colleges might be kept under direct government control. A large number of the remaining institutions might be moved into the private sector where the students would be required to pay fees at market rates. In case of needy students, who have proven track record in pursuing education, government might provide 'fee vouchers' based on which the college shall admit/continue students in the subsidised category. Such vouchers shall be redeemed by the college from the government directly and the government shall transfer the subsidy funds directly to the colleges proportional to the number of students admitted against vouchers. 25% of the total value of the voucher shall be provided during admission and 75% during pass-out.

- **Rationalizing Availability of Faculty:**

- a. Initiate a National Teacher Scheme whereby retired or in-service teachers who are willing to devote time could be identified across disciplines and attached to colleges of their choice /or as per felt needs. Government shall fund this scheme and initiate a one year pilot with Rs 60 crore allocation.
- b. Restoration in accountability of teachers and Principals of colleges.
- c. Lessons taught by eminent teachers could be telecast across the entire college network.

- **Rationalizing Choice of Subjects:**

- a. Linking subjects to be taken up by the students should be rationalized and the design of the total portfolio available should be decided by the contemporary need.

- **Redesigning of College Organizational Structure:**

Cluster colleges should be established. Those colleges having faculty strength below 100 should be merged into defined clusters. Components of clusters should share faculty, infrastructure etc and come under a single Management Council that governs the entire cluster. The Clusters should be endowed with smart class rooms and high speed Internet connectivity so as to effectively communicate and operate in cyber space.

Minutes of Meetings with Selected University Vice Chancellors held on 17th February, 2014 at Calcutta University

Background:

The Chairman held an interactive meeting with the Vice Chancellors (or their representatives) of the following Universities:

- University of Calcutta
 - Jadavpur University
 - Aliah University
 - North Bengal University
-

- Vidyasagar University
- Presidency University
- W.B. State University
- Sidhu Kano Birsa Munda University, Purulia

Additionally, three members of the Commission namely Prof A.T. Khan, Prof. S. Bandyopadhyay and Prof. A. Sengupta were also present.

Identification of Single Most Pressing Problem that needs to be solved:

University	Perceived Problem
Jadavpur University	No platform where people from different communities can interact with the University
Calcutta University	Too many affiliated colleges need to be managed
Vidyasagar University	Autonomy of the University is not adequate
Presidency University	Infrastructure is not sufficient to cater to the increased activities and requirement. Funding for infrastructure augmentation is not satisfactory
Aliah University	Disparity in pay structure between state and central institutions is an impediment in attracting good faculty
North Bengal University	Filling up of vacant teaching/non-teaching positions is long overdue
W.B. State University	Recognition under Section 12B is yet to be obtained
Sidhu Kano Birsa Munda University	Recognition under Section 12B is yet to be obtained

Inputs from Individual Universities:

1. Calcutta University:

- a. The university is too large and trimming the university to make it a smarter entity is to be explored
- b. Implementation of the adjunct faculty system, that has already been mulled by the UGC and is yet to be accepted at the state government level. This would also offset the acute shortage of qualified faculty in certain disciplines.
- c. The decision on whether to resort to the centralized online admission system as suggested under RUSA need to be taken.
- d. A mechanism needs to be evolved so as to provide equivalence to foreign degrees.
- e. A patent cell should be set up at state level in order to bolster the IPR scenario of the various universities
- f. The ICT infrastructure in universities and colleges need to be augmented and the expanse of the National Knowledge Network in the state widened.
- g. New entrants into the college and university education systems should be made to undergo orientation training. A W.B. Teacher Academy could be set up for this purpose.
- h. The universities and colleges should be integrated into innovation clusters so as to spur creativity in the region.
- i. Institution of 'block research grants' for cutting edge research
- j. Develop a mechanism of providing start-up grants for new faculty.

2. Jadavpur University

- a. Inter-disciplinary education is being given a priority
- b. Lack of centralized data for university performance indicators is a major hurdle in monitoring that needs to be addressed

3. Presidency University:

- a. The university relies on three focal points namely intertwined approach towards teaching and research; focus on building an innovation university; and adopting a multi-disciplinary approach to education.

- b. Too much reliance on precedence in various administrative and academic practices has been a major impediment in delivering excellence.
- c. The university is keen to organize a conference on best practices for officers from the world wide context in order to make the university procedures more competitive
- d. Performance management may be undertaken by the Harvard model i.e. 40% weightage to teaching; 40% weightage to research and 20% weightage to contribution in university affairs.
- e. Some new categories of manpower such as Chief Digital Officer, Director of Planning and Development etc. are envisaged.

4. Vidyasagar University

- a. The autonomy to the university should be substantially enhanced
- b. A comprehensive mechanism for quality control in teaching and research to be designed and put in place.

5. North Bengal University:

- a. The university has identified some focus areas for North Bengal around which the educational programmes of the university are structured. These areas are tea, pharmacy, medicinal plants, agro-processing, tourism, financial services and retail management.
- b. Employability of students is currently restricted to schools, colleges, universities and also in the legal sector, banking sector and the corporate sector to some extent.
- c. Infrastructure and power are among the major impediments of the university.
- d. The university envisages setting up technology faculty and also a school of performing arts.
- e. New categories of manpower e.g. System Analyst is envisaged to be recruited in order to put in place a robust data system.
- f. Currently a very large number of PG pass-outs (which is about 1400 annually) join the school service, with enrolment for further higher education and research being dismally low. In some disciplines such as management or tea science, there is a 100% local placement.
- g. Students intending to enter research after the PG courses are often faced with problems of fellowship as there is an inordinate delay in release of JRF by the UGC. This has a demotivating effect on the students. Many time, they opt out of the fellowship.

6. Sidhu Kano Birsha University

- a. New universities being set up by the state government should be provided with adequate piece of land

- b. Location of the campus should be such that it is accessible to the students, teachers and other employees.
- c. The university is contemplating setting up courses in physical education and performing arts

7. W.B. State University

- a. Distance education would be started soon
- b. Location of the university is an impediment to attract good students and faculty

Some General Recommendations that could be made based on the discussion with Vice Chancellors:

- Individual departments in universities could be replaced by schools e.g. various language departments could be merged into School of Languages
- Creation of centralized inter-departmental and inter-disciplinary facilities following the Stanford BioX model
- Upgrade CU and JU to central universities
- Need analysis across various domains being taught in universities are to be carried out. Such data should provide information about market demand of various disciplines, job availability across various disciplines, mapping production versus requirement of PhDs in various disciplines etc.
- Each university to develop a specific sports focus
- Trim Calcutta University to make it a smarter entity
- Institute adjunct faculty position in the universities
- Set up the W.B. Teacher Academy in the premises of North Bengal University
- The planning for location of the universities should be revisited and drastic changes even amounting to relocation of universities under extreme cases should be considered as an alternative.
- Different metrics should be evolved for various universities. For example Presidency University, CU and JU should be assessed only through production of excellence and its ability to retain students who would have otherwise gone abroad for PhD. Appropriate yardstick should be evolved for every university.

Issues to Address:

There is an overall concurrence to enhance autonomy in universities and also trim the universities by shedding affiliated colleges. One of the ways of doing this is to encourage formation of autonomous colleges. However, all colleges are not geared to take the status of autonomous colleges. Thus the mechanism of implementing this decentralization continues to remain a challenge.

Minutes of Meetings with Various College Teachers Associations of W.B. on 19th March, 2014

Some Highlights of Discussion:

A. W.B. Government College Teachers Association (WBGCTA):

- Against the cadre strength of around 2000, there is a substantial number of positions (reaching almost 50%) that are lying vacant.
- There is a need of academic audit in colleges covering both human and non-human resources.
- Equivalence should be achieved in terms of syllabi and curriculum among all the government colleges across W.B.. A uniform syllabus across the state is called for.
- Syllabi should nevertheless need to be diversified so as to subsume the present day developments
- There is a need to revamp the examination system and also the question structure
- Location of HEI that are being set up need to be done systematically and there should be presence of feeder schools in the vicinity so as to keep sustainability is supply of students.
- Uniform attendance policy needs to be followed
- Age of superannuation could be increased to 65 instead of the 60+5 concept. This is because of the fact that there is too much increase in the number of part-time and ad-hoc teachers.
- The modalities of implementation of RUSA should be defined and developed carefully. The 17.5% share of private sector in the 35% state government funding could be sourced through models of PPP and viability gap funding.
- The overall health and status of the government colleges should be revived. In this context, three points could be pivotal:
- Convert all government colleges into unitary universities (this is a counter point and not very advisable)

- Create a university comprising of all government colleges
- Optimize the transfer policy in government colleges

B. All Bengal State Government Teachers' Association (ABSGTA):

- Revamping and improving the conditions of government colleges. It is not advisable to have new colleges without improving the condition of existing ones.
- Address the issue of mobility between government and non-government colleges by putting in place a mechanism of continuity of service, pension system etc.
- Incentivize fee structure by linking it with attendance

C. W.B. College and University Professors Association (WBCUPA):

- Segment higher education into knowledge based and need based education
- Follow a differential question pattern that is dependent on subject. While science and related subjects could have MCQ pattern, the same should be subjective for literature and social sciences. This should be followed even for competitive examinations such as NET or the various admission tests.
- Allocate teaching resources more optimally particularly for subjects having less demand.
- College service commission and public service commission should be treated at par. Currently there is level of superiority for the PSC.
- The role of administrative officers of the education department in college assessment promotions should be minimized.
- Sabbatical leave should be provided to college and university teachers in similar lines with IIT etc.
- Reopening of the Career Advancement System (CAS) which has been kept in abeyance for 28 months.

D. W.B. University Teachers Association (WBUTA):

- Considering the present scenario of education in Bengal, the Vision 2030 is a realistic target with Vision 2020 a bit pre mature.
- Colleges should be brought under a separate council or a sub-council under the WB Council of Higher Education.

- The aspect of attendance in colleges should be given a more comprehensive relook with a focus on understanding the cause of poor attendance in classes.

Some Salient Recommendations and Take Home Points:

1. Developing a College Information and Control System:

- The aspect of poor availability of data regarding the college education system could be best addressed through designing of an online system with auto data collection and auto design of solutions.

2. Curriculum Design and Optimizing Question Structure:

- There could be a common curriculum design by the Council of Higher Education.
- Question structure design should be done to ensure equivalence of marks
- Achieving an optimal modal mix of subjective and objective questions during examinations

3. Addressing the Problem of Attendance:

- Evolve a mix of physical education versus distance education in delivering the college curriculum. This would provide students with an option to choose from whether to attend a class physically or to attend remotely.
- Fees of classes delivered through physical contact to be substantially higher than those delivered in distance or electronic mode.
- Incentivize fees with attendance. For example, 100% attendance would lead to reduced fees at a later stage.

Point for Chairman: We need to decide whether the Commission in its policy guidelines shall encourage physical attendance or shall discourage physical attendance. The policy should be positioned accordingly. For example, online banking or ATMs are actually measures to discourage people from physically flocking to banks yet use all its services. Both would have their pros and cons.

4. Service Conditions:

- There should be portability of service among government colleges, government aided colleges and private colleges.
- Mechanism should be developed to achieve seamless interoperability of the PSC and CSC systems of recruitment of college teachers

Table 8: W.B. Higher Education Model for incremental capacity

2016-17	Number of seats required	Current Estimated Enrolments	Current Enrolment :Intake	Additional Requirements	Current Students per College	Current Number of colleges	Ideal Number of students per college	Increment al capacity	Number of new colleges

Details

Component 1: Creation of Universities by way of upgradation of Existing Autonomous Colleges

State level plan should examine the proposal from the state university to up-grade the existing autonomous college into a university. As the proposal from the university is accompanied with details of autonomous college, the research publications of all the teachers of Autonomous college, report of Autonomous college on the willingness to be up graded to the university status and financial plan, the Higher education Council may consult Directorate of Higher Education and management and Principal of Autonomous college. After having carefully scrutinised the state level proposal may include the following information:

1. Discussion and Minutes

Level	Persons	Decisions and dates
At the level of university	VC and officials along with Principals, teachers and Management of Autonomous colleges	
At the State level	State directorate, HEC and VC and Management of Autonomous colleges	

2. Details of the College (2012-13) Proposed for up-gradation

i) Ramakrishna Mission Vidyamandir; ii) St. Xavier's College

	Indicator	Unit	Autonomous College A St. Xaviers College	Autonomous College B Ramakrish Mission	Autonomous College C & so on
Whether Govt./Pvt./Aided?		Category	Govt. Aided	Govt. Aided	

	Indicator	Unit	Autonomous College A St. Xaviers College	Autonomous College B Ramakrish Mission	Autonomous College C & so on
In existence for number of years?		Years	154 years	73 years	
Year of Establishment		Year	1860	1941	
Land Area of the College		Acres			
Whether College with Potential for Excellence (CPE)		Yes/No	Yes	Yes	
Number of Departments		Number	11	6	
Total Students Enrolled in undergraduate programme		Number	5976	511	
Total Students Enrolled in postgraduate programme		Number	477	122	
Total Number of Teachers (sanctioned positions)	Actual No.	Number	244	36

Hostel						
Total						

Component 2: Creation of Universities by conversion of colleges in a cluster

State level plan should examine the proposal from the state university to establish cluster college into a university. As the proposal from the university is accompanied with details of lead and cluster colleges, the research publications of all the teachers of Lead college, report of Lead and cluster college on the willingness to be up graded to the university status and financial plan, the Higher education Council may consult Directorate of Higher Education and management and Principal of Lead and cluster colleges. After having carefully scrutinised the state level proposal may include the following information:

1. Discussion and Minutes

Level	Persons	Decisions and dates
At the level of university	VC and officials along with Principals, teachers and Management of Lead and cluster colleges	
At the State level	State directorate, HEC and VC and Management of lead and cluster colleges	

2. Proposal of Lead and cluster colleges with basic information (Maximum of three such proposals A, B and C may be finalised at the state level)

Proposal A

	Indicator	Unit	Lead College	Cluster college 1	Cluster college 2	Cluster college 3	Cluster college 4	Cluster college 5
Whether Govt./Aided/Private		Category	Govt. College	Govt. College	Govt. College	Govt. College	Govt. College	Govt. College
Name of College			Raiganj College	Meghnad Saha College	Shree Agrasen College	Islampur College	Chopra College	Surendra nath College

	Indicator	Unit	Lead College	Cluster college 1	Cluster college 2	Cluster college 3	Cluster college 4	Cluster college 5
Distance from Lead College (KM)				25	40	90	110	5
Land Area of the College		acre	13.63					
Year of Establishment			1948	2000	1995	1973	2013	1986
Whether Autonomous college			No	No	No	No	No	No
Whether College with Potential for Excellence (CPE)			No	No	No	No	No	No
Number of Departments			15	11	6	9		15
Total Students Enrolled in undergraduate programme			5290	2799	2295	6732	700	4767
Total Students Enrolled in postgraduate programme			79	0	0	0	0	0
Total Number of Teachers (sanctioned positions)		Actual	55	10	9	33		50
Student Teacher (sanctioned position) Ratio		Actual	1:97	1:279	1:255	1:204		1:95

	Indicator	Unit	Lead College	Cluster college 1	Cluster college 2	Cluster college 3	Cluster college 4	Cluster college 5
Total Number of Teachers (actual in position)								
Total number of Administrative and Support Staff				19		30		
Accreditation Grade			B+					
Number of Books in Library								
Number of Computers								
Student in Boys Hostels	SC	Number						
	ST	Number						
	OBC	Number						
	Others	Number						
Student in Girls Hostels	SC	Number						
	ST	Number

Canteen / Cafeteria		
Laboratory		
Computer Centre / e - campus		
Playground		
New Equipments / Facilities (Upper limit 30% of total proposal)		
Sports Facilities		
Computers (Expansion of LAN, Up-gradation of Infrastructure, procurement of accounting and other software for admn. Department and academic deprt.s)		210.00

W.B. State Higher Education Plan; Government of W.B.

Books / Journals / e-Rources		390.00
TOTAL FUND CLAIMED		2000.00

Component 4: New Model Colleges (General)

- At the state level the model colleges' proposal sent by the universities may be scrutinized following the RUSA guidelines and funding priorities under the component. A maximum of 5 Proposals from a particular state may be proposed under the existing 374 Model College Scheme of general education.

The following information in the table below should be given:

Model College Scheme

	Indicator	Unit	Model college 1	Model college 2	Model college 3	Model college 4	Model college 5	Model college 6	Model college 7	Model college 8	Model college 9	Model college 10
Whether College (Govt./ Aided)			Govt.	Govt.	Govt.	Govt.	Govt.	Govt.	Govt.	Govt.	Govt.	Govt.
District under which model college is proposed			24 Pg. North	24 Pg. North	Hoogli	Howrah	Birbhum	Nadia	Jalpaiguri	Cooch Behar	Jalpaiguri	Dakshin Dinajpur
Is it EBD District		Yes/No.	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes
Reservation for socially & economically weaker section	% of Hostel seats	%										
Whether a new MDC		Yes/No										
Sanctioned /Established after 01.01.2008		Yes /no										
Available land area	Area	In acres										

	Indicator	Unit	Model college 1	Model college 2	Model college 3	Model college 4	Model college 5	Model college 6	Model college 7	Model college 8	Model college 9	Model college 10
Does the state commit to bear recurring expenses		Yes/No	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes
Number of colleges in the concerned district		Number	149	149	74	52	46	59	29	24	29	17
No of Colleges per 1,00,000 students of 18-23 year age group in the district		Number	13	13	11	9	11	10	6	7	6	9
Percent of SC and ST population to total in the district		%	24	24	28	15	36	33	57	51	57	45
Percent of Female students enrolled to 18-23 year age group female population in the district		%	18	18	20	11	10	17	16	13	16	18
Percent of SC and ST students enrolled to 18-23 year age group SC and ST population in the district		%	10	10	14	11	11	21	19	14	19	14

1. State should submit the following financial plan for each model college proposed (Cost per Sq. Meter as per RUSA Guideline):

	Model College 1		Model College - 2		Model College – 3	
Proposed College Falls under, Please specify (Tier-1/Tier-2/Tier-3)						
Details for proposed college	Physical Value (Area in Sq.Mt))	Financial Value (Rs. in lakhs)	Physical Value (Area in Sq.Mt.)	Financial Value (Rs. in lakhs)	Physical Value (Area Sq.Mt.)	Financial Value (Rs. in lakhs)
Administrative Buildings, Faculty rooms						
Laboratories						
Classrooms						
Library						
Computer Centre/E-campus						
Toilet Blocks separate for boys and girls						
Miscellaneous						
Hostel						
Total						

3. A consolidated table of all model colleges may be given:

Model College	Total cost (Rs. lakhs)	Reasons in support of modal college
A		
B		
C		
D		
E		

Each college would be paid 10 crores over a period of three years with 2 crores in the first year and 4 crores each in the next two years. A total of 100 crores have been allocated in this component

Component 5: Up gradation of existing Degree Colleges to Model Degree Colleges – Not Applicable

1. At the state level the model colleges' proposal sent by the universities may be scrutinized following the RUSA guidelines and funding priorities under the component. A maximum of 5 Proposals from a particular state may be proposed under the existing Degree Colleges to Model Degree Colleges through the conversion of existing college. The following information in the table below should be given:

Model College Scheme

	Indicator	Unit	Model College 1	Model College 2	Model College 3	Model College 4	Model College 5
Whether the colleges Govt./Aided		Category					
District under which model college is proposed		Name					
Number of colleges in the concerned district		Number					
Is it an EBD District		Yes/No					
No. Of districts where upgradation can be done as per RUSA guidelines		Number					
Have the districts where upgradation can be done, been prioritized on the basis of CPI		Yes/No					

	Indicator	Unit	Model College 1	Model College 2	Model College 3	Model College 4	Model College 5
Reservation for socially & economically weaker sections	% of hostel seats	%					
No of Colleges per 1,00,000 students of 18-23 year age group in the district		Number					
Percent of SC and ST population to total in the district		%

2. A consolidated table of all model colleges may be given:

Model College	Total cost (Rs. lakhs)	Reasons in support of modal college
1		
2		
3		
4		
5		

Component 6: Professional Colleges (New)

- 1 At the state level the professional colleges (new) proposal sent by the universities may be scrutinized following the RUSA guidelines and funding priorities under the component. At the state level Directorate of Technical Education may be consulted for new professional colleges in the state. A maximum of 5 Proposals from a particular state may be proposed under the new professional college scheme. The following information in the table below should be given:
- 2 University may suggest the establishment of new professional college. The following information in the table below should be given:

	Indicator	Unit	Professional college A	Professional college B	Professional college C	Professional college D	Professional college E
District under which professional college is proposed		Name	Cooch Behar				
Number of Professional colleges in the concerned district		number	0				
No of professional Colleges per 1,00,000 students of 18-23 year age group in the district		%	7				
Percent of SC and ST population to total in the district		%	51				

	Indicator	Unit	Professional college A	Professional college B	Professional college C	Professional college D	Professional college E
Percent of Female students enrolled to 18-23 year age group female population in the district		%	13				
Percent of SC and ST students enrolled to 18-23 year age group SC and ST population in the district		%	14				
Reservation for socially & economically weaker section	% of Hostel seats	%					
Student teacher ratio		Ratio	1:84				
Teaching to non teaching ratio		Ratio					

2. University should submit the following financial plan for each professional college proposed above (Cost per Sq. Meter as per RUSA

Guideline):

	Professional college – A		Professional college – B		Professional college – C		Professional College – D		Professional College – E	
The proposed college falls under, please specify (Tier-1/Tier-2/Tier-3)										
Details for the proposed college	Physical Value (Area in Sq.Mt)	Financial Value (Rs. in lakhs)	Physical Value (Area in Sq.Mt.)	Financial Value (Rs. in lakhs)	Physical Value (Area in Sq.Mt.)	Financial Value (Rs. in lakhs)	Physical Value (Area in Sq.Mt.)	Financial Value (Rs. in lakhs)	Physical Value (Area in Sq.Mt.)	Financial Value (Rs. in lakhs)
Administrative Building

3. A consolidated table of all new proposed professional colleges may be given:

Professional College	Total cost (Rs. lakhs)	Reasons in support of new professional college
A		
B		
C		
D		
E		

The college would be paid 30 crores over a period of three years with 10 crores divided equally

Component 7: Infrastructure Grants to Colleges – There are 497 colleges proposed with 2 crores per college spread over a period of three years. A total of 994 crores have been assigned to this component. Plz refer to the Annex for complete details.

1. Scrutiny at the state level should carefully examine the funding priority given in the RUSA guideline. The information is given in the institutional plan of college and PG Departments. After scrutiny at the state level Institutional Development Plan of a college, under the component, prioritize the college in descending order of importance with respect to infrastructure grant to college with a maximum limit of Rs. 2 crore for each college for each university and present the information in the following table:

	Indicator	Unit	College 1	College 2	College 3
Name of the College					
Category (Govt./Aided/Private)		Category			
NAAC Accreditation		Grade			
Whether included under 12B of UCG Act		Yes /no

Infrastructure Grant to Colleges (Rs. lakhs)

Name of the College in descending order of importance	2014-15	2015-16	2016-17	Total
1				
2				
....				
....				

Note: number of rows may be increased depending upon the number of colleges
Similarly give above table for university B, C...

- 2 Based on Institutional Development Plan of a post graduate department, Prioritize the department in descending order of importance with respect to infrastructure grant to the department with a maximum limit of Rs. 2 crore for each department for each university and present the information in the following table:

Infrastructure Grant to University Post Graduate Department (Rs. lakhs)

Name of the University Post graduate department in descending order of importance	2014-15	2015-16	2016-17	Total
1				
2				
....				
....				

Note: number of rows may be increased depending upon the number of institutions
Similarly give above table for university B, C...

Component 8: Research, Innovation and Quality Improvement

- 1 Scrutiny at the state level should carefully examine the funding priority given in the RUSA guideline. The information is given in the institutional plan of college and PG Departments. Based on Institutional Development Plan of a college, Prioritize the college in descending order of importance with respect to **Research, Innovation and Quality Improvement** grant to college with a maximum limit of Rs. 50 lakhs for each college and present the information in the following table:

4 State Aided Universities would be covered under this Component. A total of 60.7 crores would be claimed over three years. In the first year a total of 15.175 crores would be claimed.

Basic Information			
Is the State/UT covered under this component		Yes/No	Yes
Has the state/UT implemented reforms/given commitment to reforms		Yes/No	

Details – University & College wise							
Details	Indicator	Unit	University -1	University - 2 & C	College - 1	College - 2 & C	Remarks

Note: number of rows may be increased depending upon the number of institutions

Similarly give above table for university B, C...

- Based on Institutional Development Plan of a post graduate department, Prioritize the department in descending order of importance with respect to **Research, Innovation and Quality Improvement** grant to the department with a maximum limit of Rs. 10 lakhs for each department and present the information in the following table:

Research, Innovation and Quality Improvement Grant to University Post Graduate Department (Rs. crore)

W.B. State Higher Education Plan; Government of W.B.

Name of the University Post graduate department in descending order of importance	2014-15	2015-16	2016-17	Total
Jadavpur University, Eastern Regional Cyber Security Centre	8.25	16.5	8.25	33
Calcutta University, Dept. of Commerce	3	6	3	12
Ramakrishna Mission University	2.5	5	2.5	10
IISWBM	1.425	2.85	1.425	5.7

Note: number of rows may be increased depending upon the number of institutions
Similarly give above table for university B, C...

Component 9: Equity Initiatives

1. Scrutiny at the state level should carefully examine the funding priority given in the RUSA guideline. The information is given in the institutional plan of college and PG Departments. Based on Institutional Development Plan of a college, Prioritize the college in descending order of importance with respect to **Equity Initiatives** grant to college with a maximum limit of Rs. 3 lakhs for each college and present the information in the following table:

30 Institutions have been shortlisted with 0.02crore allocated for the first year and 0.04 crore offered the following two years to each institution.

Basic information		
Is the state/UT due to receive funds under this component in 12 th plan	Yes/No	
Has the state prioritized colleges for funding	Yes/No	
Colleges prioritized for fundind	Number	
Has the state prioritized PG Depts. In Universities for funding	Yes/No	

Details – University & College wise

W.B. State Higher Education Plan; Government of W.B.

Details	University - 1		University - 2		University - 3 & C	
	Physical (Number)	Financial (Rs. in lakhs)	Physical (Number)	Financial (Rs. in lakhs)	Physical (Number)	Financial (Rs. in lakhs)
Equal opportunity cells						
Plan to create remedial classes language labs, etc.						
Plan to create financial aid and scholarships for socially and economically backward students						
Plan to create equity and gender sensitization campaigns						
Plan for Innovative schemes/programs to enhance equity and inclusion						

University A: Equity Initiatives Grant to Colleges (Rs. lakhs)

Name of the College in descending order of importance	2014-15	2015-16	2016-17	Total

Note: number of rows may be increased depending upon the number of institutions
Similarly give above table for university B, C...

- 2 Based on Institutional Development Plan of a post graduate department, Prioritize the department in descending order of importance with respect to **Equity Initiatives** grant to the department with a maximum limit of Rs. 3 lakhs for each department and present the information in the following table:

University A: Equity Initiatives Grant to University Post Graduate Department (Rs. lakhs)

W.B. State Higher Education Plan; Government of W.B.

Name of the University Post graduate department in descending order of importance	2014-15	2015-16	2016-17	Total

Note: number of rows may be increased depending upon the number of institutions
Similarly give above table for university B, C...

Component 10: Faculty Recruitment Support – Not applicable

Funding support for faculty recruitment should be scrutinised at the state level. Based on critical shortage of faculty and commitment of state to support under state non plan the post of teachers' state has to forward the proposal for consideration (See the guideline of RUSA)

- 1 Based on Institutional Development Plan of a college and further forwarded by the university, prioritize the college in descending order of importance with respect to **Faculty Recruitment Support** grant to college with a maximum limit of 3 subjects/teachers for each college and present the information in the following table:

Basic Information			
Has the state/UT committed to or is committing to take over liability of faculty positions at the end of 13 th plan		Yes/No	
Has the state prioritized the University PG Dept., for FRS?		Yes/No	

Details – University /Institution wise										
Details	Indicator	Unit	University -1		University - 2 & C		Administrative Staff College - 1		Administrative Staff College - 2 & C	
Assistant Professors/ equivalent cadre vacant		Number								
Will all there faculties recruited taken as permanent faculties as per state govt. rules?		Yes/No								
Recruitments taken place in last 3 yrs	Regular recruitments /vacant position	Ratio								
Contractual recruitment taken place in last 3 years	Contractual recruitment/vacant position	Ratio								
Contractual posts proposed to be converted to regular posts	Number/total contractual posts	Ratio								
Student teacher ratio	Average (over the entire state)	Ratio								

W.B. State Higher Education Plan; Government of W.B.

Details – University /Institution wise										
Details	Indicator	Unit	University -1		University - 2 & C		Administrative Staff College - 1		Administrative Staff College - 2 &C	
FRS grants Proposed	Amount	In lakhs								

W.B. State Higher Education Plan; Government of W.B.

University A: Faculty Recruitment Support Grant to Colleges (Rs. lakhs)

Name of the College in descending order of importance	2014-15	2015-16	2016-17	Total

Note: number of rows may be increased depending upon the number of institutions
Similarly give above table for university B, C...

W.B. State Higher Education Plan; Government of W.B.

- 2 Based on Institutional Development Plan of a post graduate department, Prioritize the department in descending order of importance with respect to **Faculty Recruitment Support** grant to the department with a maximum limit of 3 subjects for each department and present the information in the following table:

University A: Faculty Recruitment Support Grant to University Post Graduate Department (Rs. lakhs)

Name of the University Post graduate department in descending order of importance	2014-15	2015-16	2016-17	Total

Note: number of rows may be increased depending upon the number of institutions
Similarly give above table for university B, C...

Component 11: Faculty Improvement

For faculty improvement the Academic Staff Colleges have to plan. The proposal sent by the university has to be scrutinized at the state level on the basis of RUSA guidelines. The proposal after scrutiny should be presented in the tabular form:

Not

Applicable

Norms	Indicator	Unit	Training Institute - 1	Training Institute 2 & C	University - 1	University - 2 & C	Academic Staff college - 1	Academic Staff college – 2 & C
Financial support planned by the state		Rs. in cores						
Funds for training / other faculty improvements	Academic faculty	Rs. In lakhs						
	Other Administrative & Support Staff	Rs. in lakhs						
Funds required for Books / e-resources		Rs. in lakhs						
Funds required for Maintenance-related costs		Rs. in lakhs

Other								
Total								

Component 12: Vocationalization of Higher Education

- 1 State level scrutiny should be based as per RUSA guidelines. Based on Institutional Development Plan of a college, Prioritize the college in descending order of importance with respect to **Vocationalization of Higher Education** grant to college with a maximum limit of Rs. 5 lakhs for each college and present the information in the following table:

University A: Vocationalization of Higher Education Grant to Colleges (Rs. lakhs)

Name of the College in descending order of importance	2014-15	2015-16	2016-17	Total

Note: number of rows may be increased depending upon the number of institutions
Similarly give above table for university B, C...

- 2 Based on Institutional Development Plan of a post graduate department, Prioritize the department in descending order of importance with respect to **Vocationalization of Higher Education** grant to the department with a maximum limit of Rs. 5 lakh for each department and present the information in the following table:

A total of 38 crores would be claimed under this component. In the first year each institution would be offered 0.5 crores with a first year total of 9.5 crores

Basic Information		
Is the state/UT covered under this component in 12th plan period	Yes/No	
Has the State prioritized the colleges for VHE grants?	Yes/No	
Has the State prioritized the University PG Deptt? For VHE grants?	Yes/No	

VHE Details about University					
Norms	Indicator	Unit	University – 1	University – 2	University – 3 & C
Infrastructure Support	Amount	Rs. in lakhs			
Implementation of Curriculum reforms	Amount	Rs. in lakhs			
Implementation of Career oriented courses	Amount	Rs. in lakhs			
Total	Amount	Rs. in lakhs			

University A: Vocationalization of Higher Education Grant to University Post Graduate Department (Rs. lakhs)

Name of the University Post graduate department in descending order of importance	2014-15	2015-16	2016-17	Total

Note: number of rows may be increased depending upon the number of institutions
Similarly give above table for university B, C...

Component 13: Leadership Development of Educational Administrators

1. State level scrutiny should be based as per RUSA guidelines. Based on Institutional Development Plan of a college, Prioritize the college in descending order of importance with respect to **Leadership Development of Educational Administrators** grant to college with a maximum limit of Rs. 5 lakhs for each college and present the information in the following table:

University A: Leadership Development of Educational Administrators Grant to Colleges (Rs. lakhs)

Name of the College in descending order of importance	2014-15	2015-16	2016-17	Total

Note: number of rows may be increased depending upon the number of institutions
Similarly give above table for university B, C...

- 2 Based on Institutional Development Plan of a post graduate department, Prioritize the department in descending order of importance with respect to **Leadership Development of Educational Administrators** grant to the department with a maximum limit of Rs. 5 lakh for each department and present the information in the following table:

Not Applicable

Norms	Indicator	Unit	University 1		University 2		College 1		College 2	
Commitment to provide leadership positions to at least 40% of the persons trained		Yes/No								
Age profile of prospective leaders	Below 50 years / total	Ratio								
% of women faculty to participate in leadership programs		%								
Leadership Development Programmes proposed		Number								
		Rs. In lakhs								

W.B. State Higher Education Plan; Government of W.B.

University A: Leadership Development of Educational Administrators Grant to University Post Graduate Department (Rs. lakhs)

Name of the University Post graduate department in descending order of importance	2014-15	2015-16	2016-17	Total

Note: number of rows may be increased depending upon the number of institutions
Similarly give above table for university B, C...

Component 14: Institutional Restructuring and Reforms

Refer to the RUSA Guidelines and prepare a detailed project report for three components. State Higher Education Council and State Accreditation Agency. The project report of State Higher Education shall include the State Project Directorate and Project Approval Board. The project reports for two bodies shall be separate. The project report should include the organisational structure, objectives, infrastructural arrangement, activities undertaken for academic and administrative reforms such as curricular reform, semesterisation, credit system, continuous and comprehensive evaluation, innovative practices - academic, governance, IT related - etc. A detailed financial plan for salary, infrastructure cost, workshops, seminars, meetings, travel, training, hiring consultants, operating and contingencies may be given. Specifically State Accreditation agency should include activities on the pattern of NAAC. Upper limit to a state under this component shall be Rs. 10 crores during 12th plan.

Not Applicable

Norms	Indicator	Unit	Value
State Accreditation Agency created		Yes/No	
Undertaken/committed to sectoral, academic & governance reforms		Yes/No	
Funds for SHEC	Organizing meetings/workshops/trainings	Rs. In lakhs	
	Administration-related	Rs. In lakhs	
State Resource Centre	Consultants	Number	
	Consultants	Rs. In lakhs	
	Administration-related	Rs. In lakhs	
Funds for State Project Directorate	Organizing meetings/workshops/trainings	Rs. In lakhs	
	Administration-related	Rs. In lakhs	

Component 15: Capacity Building and Preparation, Data Collection and Planning

As per RUSA Guidelines, funds will be given to States and Union Territories to

- Undertake baseline surveys
- Data collection and compilation.
- Organise meetings, consultations, workshops, trainings
- Hire consultants
- Preparation of State perspective plans/strategy reports

Upper limit to a state under this component shall be Rs. 5 crores during 12th plan. A financial plan under above headings should be submitted.

Norms	Indicator	Unit	Value
Baseline surveys	Amount	Rs. In lakhs	
Data collection and compilation.	Amount	Rs. In lakhs	
Organise meetings, consultations, workshops, trainings	Amount	Rs. In lakhs	
Preparation of State perspective plans/strategy reports	Amount	Rs. In lakhs	

Component 16: Management Information System

Funds will be provided to create and maintain strong data systems at the State level for surveys and analysis that could provide information to the national MIS up to a maximum limit of Rs. 2 crores.

Norms	Indicator	Unit	Value
State MIS set up?		Yes/No	
Equipments procured?		Yes/No	
Organizing MIS -related workshops/trainings		Number	
	Funds	Rs. In lakhs	
Hiring MIS consultants		Number	
	Funds	Rs. In lakhs	

Component 17: Support to Polytechnics

In consultation with the Technical Education department the project report under the component may be prepared. Funding will be provided for setting up of new polytechnics

- Strengthening of existing polytechnics
- Construction of women's hostels in polytechnics
- Scheme of community development through polytechnics (CDTP) to provide non-formal, short-term, employment oriented skill development programmes through AICTE approved polytechnics.

A detailed project report based on the guidelines need to be submitted within an upper limit of finance.

Not Applicable

Basic Information					
Districts without polytechnics	Number				
State's commitment for bearing non recurring expenditure	Yes/No				
AICTE Approved Govt./Govt. Aided polytechnics	Number				
Norms	Indicator	Unit	Polytechnic 1	Polytechnic 2	Polytechnic 3 & C
Funds required	Building & Construction infrastructure	Rs. in lakhs			
	Equipment purchase	Rs. in lakhs			

Funds required	Modern Equipment purchase	Rs. in lakhs			
	IT Applications in teaching	Rs. In lakhs			
Funds required for Hostel infrastructure	New Diploma Courses	Number			
		Rs. in lakhs			
	Building (with toilet) & Mess facilities	Rs. in lakhs			
	Development of lawn area	Rs. in lakhs			
	Reading room in hostel premises	Rs. in lakhs			
	Lounge/visiting area	Rs. in lakhs			
Funds required Community Development Scheme (CDTP)	Employment oriented skills (Tailoring, sewing, painting, etc.)	Rs. in lakhs			

Component 18: Management Monitoring Evaluation and Research (MMER) – Not Applicable

As per the RUSA Guidelines

State eligible to participate in RUSA as per fund equalization formula			Yes/No
Creation of State TSG	Funds required	Administrative & Monitoring expenses	amount in lakhs
		Cost for annual audit	amount in lakhs

Consolidated Table of Institutional Development Plan (Name of the State)

Component	Name	Cost (Rs. lakhs)			
1	Creation of Universities by way of upgradation of existing Autonomous Colleges	2014-15	2015-16	2016-17	Total
2	Creation of Universities by conversion of colleges in a cluster				
3	Infrastructure Grants to Universities				
4	New Model Colleges (General)				
5	Upgradation of existing Degree Colleges to Model Degree Colleges				
6	New Colleges (Professional)				
7	Infrastructure Grants to University

State Plan at a Glance

1. Introduction

Vision

- To make need – based, affordable, high quality, higher education accessible for all
- To provide access to students from all sections of the society with special emphasis on SC/ST/OBC, female students and differently-abled students
- To make the institutions of the State more responsive to the needs of the growing economy and society
- To provide congenial and quality environment to students through improved infrastructure and high quality staff.

Mission

- To stimulate the academic environment for the promotion of quality of teaching-learning.
- To encourage self evaluation, accountability, autonomy and innovations in collaboration with the stakeholders.
- To ensure overall quality assurance in education system.
- To create online linkage between universities and colleges through use of ICT tools.
- To train faculty in creation of instructional design content and implementation of capacity building measures

Goals

Goals	Performance Measure	Strategic Objective (Key interventions)
1. To achieve higher enrolment of students	Increasing GER of the State from present 17.5 to 25.2 by end of 2017 and subsequently to 30 by end of 2022.	By introduction of new model colleges and creating cluster universities
2. Bringing about equity in the education system	Providing adequate opportunities to economically deprived rural communities, women, SC/ST/OBC and disabled persons	By opening up new institutions in backward areas and also setting up vocational courses to train them for employment.
3. To achieve higher PTR	To improve Pupil-Teacher ratio from present 43:1 to 24:1. To enrich and enhance knowledge of the teachers in order to bring in excellence in pedagogy	By filling up vacant positions in colleges and universities, making the profession more attractive and respectable, renaming teachers' posts and reengaging retired teachers.
4. To achieve excellence in pedagogy	To increase employability by giving students required vocational training.	By creation of new B.Ed colleges and mandatory demonstration class during faculty recruitment. To create centers of vocational training and skill development

Goals	Performance Measure	Strategic Objective (Key interventions)
5.To increase employability		at all institutions so that the students are industry ready.

Qualitative Profile:

Are there any Educationally Backward districts in the State or districts with special concerns? Provide an educational profile of the State on a district-basis, identifying the weakest and strongest areas in the state, any disciplines or academic areas where certain areas have the potential to improve, districts with special needs in terms of vocational/agricultural/medical education etc.
No. of EBDs (as per UGC list of 374 EBDs) = 17

Weakest 5 districts	Reasons
Maldah	High % of EBB and low CPI, low GER
Uttar Dinajpur	High % of EBB and low CPI and low female GER, high PTR
Murshidabad	Low CPI, low GER, low average enrolment per college, high % of EBBs

South 24 Paraganas	Low GER and low female GER
Dakshin Dinajpur	High PTR, low CPI, low GER
Strongest 5 Districts	Reasons
Kolkata	High CPI, GER, high GER female, low PTR
Burdwan	High GER, high CPI, low % of EBB
Hoogly	High GER, high female GER, high CPI
Darjeeling	Low PTR, High female GER, high GER, high CPI, low % of EBB
North 24 Paraganas	High GER, high CPI, low % of EBB
Districts with special Needs	Reasons
Nadia	Low CPI, low average enrolment per college and high % of EBBs
Cooch Behar	High % of EBB and low CPI, high PTR, low GER
Howrah	Low average enrolment per college and low CPI
Puruliya	High % of EBB and low female GER

3. Analysis of past performance

Goals	Objectives or Goals	Strategies	Target Proposed	Target Achieved	Reasons for Non-Performance
Access	1.High institutional density	New institutions had been set up, improving the existing colleges and universities and affiliating them	GER has to be increased to 25.2%,		Lack of initiatives in some districts
	2.High GER				
	3.High CPI				
Equity	Having enough institutions in the areas with high SC/ST/OBC population	Identifying the areas with high SC/ST/OBC population and Setting up more universities in these areas		Universities like sidho-kanho university has been set up in such areas	

Goals	Objectives or Goals	Strategies	Target Proposed	Target Achieved	Reasons for Non-Performance
Academic Excellence	Improving the quality of higher education	Setting up universities providing quality education, new schemes to attract more faculty as well as B.Ed courses had been introduced to train teachers, achieving a low PTR as per national standards, introducing faculty demonstration classes during faculty recruitment.			
Research & Innovation	Trying to become a hub of Research and Development	More expenditure on Research and Development.			
Governance Reforms		Government expenditure on higher education had been increased, improvement in private sector participation to meet the higher demands, enough autonomy to be provided to universities			Employability is low and hence private sector participation has not increased to the required extent, enough autonomy has not been given

History of Higher Education in the State

W.B. is a land of great poets, nobel laureates and great scientists. Some of the oldest universities and colleges and madrasahs like Calcutta University and Sanskrit college, Scottish Church college and Calcutta Madrasah were set up in 1800s. Even after independence, the state continued to be in the front line of the education point. Indian Institute of Technology Kharagpur and Indian Institute of Management Calcutta, the first among the eminent league of IIT and IIM were set up in 1951 and 1961 respectively. National Institute of Technology, Durgapur is among the first 8 Regional Engineering Colleges established in India and was founded in 1960. Introducing professional courses, introducing universities in backward areas, allocating funds for improvement of infrastructure of higher education institutes, improving GER and allocating more funds on R&D are few steps that have been taken. The future objective of the state is to achieve international standards in all fields of higher education. Increasing employability of students by vocationalisation of higher education, improving the infrastructure and PTR of existing colleges and universities, compulsory accreditation for all universities, creation of clusters of universities, setting up B.ED colleges to train teachers, mandatory demonstration classes during recruitment of faculty, setting up 10 new model colleges and professional colleges, focusing on the educationally backward districts (as per UGC list) and setting up more institutions in such areas, providing more funds and encouraging R&D and up-gradation of autonomous colleges to universities are some of the future strategies of the state.

SWOT Analysis

Strengths	<ul style="list-style-type: none">• The commitment of the State Government to redefine and realign the contours of higher education system in alliance with the national framework• Strong and committed leadership across all institutions for uplifting of the educational system.• The commitment of the State Government in providing resources for improving higher education through strong civic infrastructure including extensive road connectivity
Weaknesses	<ul style="list-style-type: none">• Slow growth rate of the number of quality education institutions across the state• Non-homogenous development of the districts with respect to setting up of colleges and universities• Large-scale vacancy in teaching and non-teaching posts in various colleges affecting the desirable Pupil-Teacher ratio

Opportunities	<ul style="list-style-type: none">• Presence of the premier institutes like IIT Kharagpur, IIM Calcutta, Calcutta University, Jadavpur University, Presidency University etc. with international reputation in the State• The intellectual strength of the state attracting private investments to increase the number of colleges providing quality education• The increasing interest of the global academic leaders to return to the state and create adequate infrastructural facilities
Threats	<ul style="list-style-type: none">• The lack of adequate exposure for students and teachers to international pedagogy methods adversely affecting the up gradation of the curriculum.• The slow progress in the industrial sector contributing lesser to the employment opportunities for the youth leading to a loss of interest in higher education

5. Preparation of State Plan

Has the state conducted a multiple stakeholder consultation? If yes, please specify the details.⁵²

Stakeholders	Unit	Process of stakeholder engagement Conference/Workshop/FGD/Survey	Stage of engagement ⁵³	Response from stakeholders	Results of consultation	Venue & Date
1.Vice-Chancellors	8	W.B. Education Commission conducted meetings and requested presentations from all participants.				17th February, 2014 at Nano Technology Centre of Calcutta University

⁵² Kindly refer to the detailed SHEP

⁵³ Please refer to Minutes of Meetings, Annexure to SHEP

Stakeholders	Unit	Process of stakeholder engagement Conference/Workshop/FGD/Survey	Stage of engagement ⁵³	Response from stakeholders	Results of consultation	Venue & Date
2. Principals	12	Different College Principals were invited and asked for their suggestions and opinions to improve the Higher Education Sector				18 th February IACS, Kolkata
3. Faculty	20	Faculty from various institutions were invited for a discussion				
4. Academic Administrators (Provosts, Rectos, Deans, HoDs)	21					Monthly meetings of the Education Commission of W.B.
5. Industry						
6. Alumni						

6. Five-Year Perspective Plan⁵⁴

Broad Objectives	Strategies/Action Plan	Targets Proposed	Indicators	Resources Required
1.Governance	Giving sufficient autonomy to institutions	Up gradation of existing autonomous colleges to Universities, providing infrastructure development grants to universities as well as colleges		1136crores
2.Access	i)Creation of new institutions ii)Creation of Universities by conversion of colleges in a cluster	Creation of 5 new model colleges in districts with low GER and low CPI, Cluster University like- Raiganj University	High CPI in all districts and high institutional density	90crores
3.Equity	Setting up new model colleges and developing the existing colleges specially in the districts with high SC, ST population	5 new model colleges in educationally backward areas and developing existing ones.	High % of access to higher education for SC, ST and OBC	50crores

⁵⁴ Plan made for the remaining years of the present 5-year plan

Broad Objectives	Strategies/Action Plan	Targets Proposed	Indicators	Resources Required
4.Quality	Infrastructure improvement, low PTR, developing efficient administration system and advanced education system	Leadership Development of Educational Administrators, Institutional restructuring & reforms, giving Faculty recruitment support , Capacity building & preparation, Data collection & planning Developing management information system	Low PTR in all districts,	36.5crores
5.Research and development	Promoting research, innovation and quality improvement	Improving the number of PhDs, contributing funds towards research projects and improvising the research institutions of the state	High GERD (Gross Expenditure in R&D), More innovations and inventions, High number of nobel laureates from Bengal	20.2 crores
6.Private sector participation and Vocationalisation	Improving private sector participation in the education sector by increasing employability of students, promotion of Public-Private Partnership(PPP) Model	Setting up institutions and courses for vocational training, providing vocational vouchers, Success of Techno India University will encourage more PPP,	Less % of total funds from public sector and more % of total funds from private sector, more number of private universities	38crores

7. Source of Funds

Source	Funds expected 2014-15 (amount in crores)	Funds expected 2015-16 (amount in crores)	Funds expected 2016-17 (amount in crores)	Total
1. Rashtriya Uchcha Shiksha Abhiyan	417.8915	249.541	243.022	910.455
2. Grants from UGC				
3. Grants from State Higher Education Department				
4. Grants from other State departments	225.018	134.368	130.858	490.245
5. Grants from Central Departments				
6. Raised from private sector, institutions, foundations and organizations				
7. Resources raised by higher education institutions from internal sources like student fees, examination fees etc				
Total	642.91	383.91	373.88	1400.7

8. Major targets and financial outlays (for Plan period)

Component	Number/ target				Financial Outlay (Rs. in crores)				Adherence to Programmatic Norms and future commitments*
	14-15	15-16	16-17	Total	14-15	15-16	16-17	Total	
Up gradation of existing autonomous colleges to Universities				2	10	10	10	30	Ramkrishna Mishan VidyaMandir and St. Xaviers College- Both Colleges in existence for more than 15 years. The minimum existing enrollment of the college is higher than 2000. The land available is greater than 15 acres. 'A' Grade accreditation by NAAC. Teaching programmes both in undergraduate and postgraduate courses. Both Colleges are multi facility colleges. Both institutes have the status of College with Potential for Excellence (CPE) as conferred by UGC.
Conversion of colleges to Cluster Universities				2	10	20	10	40	<p><i>Raiganj University</i> Lead College- Raiganj College 5 cluster colleges- Meghnad Saha College, Sri Agrasen College, Islampur College, Chopra College, Surendra Nath College</p> <ul style="list-style-type: none"> All participating colleges have been in existence for 15 years. Have an existing combined enrollment of 2000 students. Most colleges are NAAC accredited. Reservation as per State norms The physical proximity of the Institutions is within the radius of 20-30 kms from the lead institution. <p><i>B.Ed University</i> Lead college- David Hare Training College</p>

9. Outcome and Output Targets

Outcome	Output		Indicator	Unit	2012-13	2014-15	2015-16	2016-17
Greater investment in higher education	Increase in resource allocation at State Level		Investment as a% of GSDP	%		0.3412%	0.3424 %	0.3436 %
Higher GER	Number of HEIs		Creation of new Universities	Number		2	0	0
			Creation of new Colleges	Number		10	10	0
			Upgradation of colleges to Universities	Number		2	0	0
			Upgradation of Colleges	Number		-	-	-
	Enrolments		Number	crores		19.4	24.6	27.7
	GER		Higher GER	%		18	22.6	25.2
Better transition	Increased number of students from secondary to higher		Increased number	lakhs				

Outcome	Output		Indicator	Unit	2012-13	2014-15	2015-16	2016-17
Greater investment in higher education	Increase in resource allocation at State Level		Investment as a% of GSDP	%		0.3412%	0.3424 %	0.3436 %
	education		Higher percentage	%				
Better employability	Vocationalisation		Greater pool of trained manpower	Number in lakhs		1.75	2.00	2.25
	Polytechnics		New polytechnics	Number		42	50	60
			Upgradation of polytechnics	Number		120	130	145
Better equity	SC		Increased GER for these categories	%		17	19.9	22.2
	ST			%		35	41.5	46.1
	Women			%		17	20.4	22.75

Outcome	Output		Indicator	Unit	2012-13	2014-15	2015-16	2016-17
Greater investment in higher education	Increase in resource allocation at State Level		Investment as a% of GSDP	%		0.3412%	0.3424 %	0.3436 %
Quality Gains	Faculty (ratio)		Improved Student Teacher Ratio	Ratio		1:43	1:35	1:30
	Academic reforms		CBCS	% of institutions covered		100	100	100
			Semester system	% of institutions covered		100	100	100
	Autonomy		Autonomous colleges to universities	Number of institutions covered		2	0	0
			Colleges to Cluster university	Number of institutions covered		2	1	0
	Accreditation		More institutions of higher quality	% of institutions covered		66	69	73

Outcome	Output		Indicator	Unit	2012-13	2014-15	2015-16	2016-17
Greater investment in higher education	Increase in resource allocation at State Level		Investment as a% of GSDP	%		0.3412%	0.3424 %	0.3436 %
Better research yields	PhDs		Increase in number produced	Number of PhDs per year		200	200	200
	M Phils		Increase in number produced	Number of M.Phils per year		100	100	100
	Investment		Percentage of ⁵⁵ GSDP spent on R&D	%				
	Number of Research publications		Indian refereed journals (W.B.U and Govt. Colleges)	Number		2000	2000	2000
			International refereed journals (W.B.U and Govt. Colleges)			1000	2100	2200
