

TESTIMONIALS OF STUDENTS OF ANCOL

Samina Moosa, B.A English Language

I belong to the pioneer batch of this institute, is now going to complete my three years successfully. I had a vast experience which will directly or indirectly help me in my future. Obviously college is a time that students can truly become individuals.

My journey begins with a small set up of our college at Haddo English Medium School where we studied for one year With a total enrollment of 360 students in our College in different departments, facing many difficulties but believing that it will come to an end when we will move to our permanent campus. Completing one year at Haddo we moved to our next temporary campus that is at Transport Bhawan, where we cope up with further short comings of our infrastructure. In this mean time, we find that we have gain many things in our life like fa cing problems with bold spirit and many more. The MHRD has sanctioned fund under Rashtriya Uchcharat Shiksha Abhiyan Scheme (RUSA) which has helped our institution to build the new infrastructure in our permanent campus.

In the month of July 2016 we finally moved to our permanent campus that is at Chakkargaon with awesome scenic beauty and one wing facing the sea. The eco-friendly location, soothing environment is ideal for the students. The new campus is spread over a vast area with better infrastructure.

Well Furnished Classrooms :

All the classrooms have the capacity to accommodate 60 students. The classrooms contains benches with writing desks and white board facilities.

Conference Hall :

The college maintains a conference Hall, where we hoist cultural & academic programmes. As our college is in its initial stage so we have a mini conference hall with a capacity of 125 students.

Besides we have rich library, sports, parking lots ,RO drinking water and canteen facilities.

In a nutshell if I say - College opened my eyes to the world, build knowledge, skills and brain power, and discover new passions, which can mould my future. Further it sharpened my skills in the field of choice. College experience taught me valuable knowledge about this diverse world and people and concepts in general which will enable me to hopefully become more successful in life when I finally graduate and get my degree.

My Journey in the Psychology Dept of ANCOL

Name: K Vasu

Class: BSc Psychology (Final year-6th Semester)

From my school days onwards, I was aspiring to pursue my higher studies in Psychology. The lone college in the Islands doesn't have this subject. I was bit confused about my future studies. Then I heard about a newly opening degree college in the Islands and that too with a subject of choice. My journey started with minimum infrastructure and facilities in this college. Being in my final year of a relatively specialised degree, I can reflect that ANCOL has provided me with the opportunity to explore an array of different possibilities for my future, most of which I would not have been aware of without attending this course in ANCOL. From a small temporarily setup of classroom and Laboratory, the institute has grown to a level where the labs are equipped with state of the art equipments and spacious classrooms. This was possible with fund obtained from the Centrally sponsored Scheme RUSA and from the A&N
