I and other nine my classmates were benefited by the book of all subjects that are received for semester 1, 2 & 3. The books helped us to prepare the subjects very well and we scored good rank in the internal as well as final GTU exams.

We also used the printing facility that is established in our college by RUSA scheme. I and other similar students who are economically challenged are benefited by such printing facility provided to us free of charge.

Surely such initiatives by RUSA will enhance proliferation and penetration of higher education in economically challenged sector of India, and in term will result in stronger India.
