

The RUSA activities and works under Infrastructure grant component in respect of Dr Y S Parmar Govt. P. G. College, Nahan are as below:

INTRODUCTION OF INSTITUTION

The Dr. Y.S. Parmar Government Post Graduate College, Nahan, established in 1963, is located in the heart of the city.

The college is affiliated to the Himachal Pradesh University, Shimla for all academic programs. The college provides under Graduate Three Year Degree Courses in B.A./ B.Sc. /B.Com; Professional Degree in B.C.A./ B.Voc./ P.G.D.C.A., Post Graduate Degree in English, Economics and Political Science.

Choice Based Credit System (CBCS) has been introduced for U.G. Classes under 1 Rashtriya Uchchar Shiksha Abliyan (RUSA) on the direction of the Government of Himachal Pradesh, since 2013.

This college has two separate blocks the Arts Block and the Science Block. Arts Block houses the Principal's Office, the Administration Office, the Library, I.G.N.O.U. Study Centre, and various Departments of different faculties and Classrooms for B.A. and B.Com.

This Historical Chowgan stands a witness to the Science Block on its other side. Science Block is a five storeyed building having Department of Chemistry, Physics, Botany, Zoology, Mathematics and Information Technology.

The college caters to the personality development needs of the students by providing Social Science units as N.S.S. Rangers and Rovers and Nation Cadet Corps; besides various Clubs.

Dr. Y.S. Parmar Government Post Graduate College, Nahan, promises a bright future to all the hard working students.

How RUSA grants has benefited the institution/students? 2 or 3 .pages note

Students of our college have been immensely benefitted with the grant received under RUSA, summary of which is as below;

1. As the institution is half century old. The strength of students has been raised many fold. Furniture in the classrooms was not sufficient as per the strength. To fulfil the required need, desks for the students were purchased out the received grant. Now sufficient desks are available in each class room and students are getting the benefit.
2. Storage capacity in various offices and departments of the college was falling short to keep the records and equipments intact. A number of almirahs are purchased and now storage capacity of the institutions is improved.
3. As the college building is very old and the electric fitting and fixtures were damaged. Due to which classrooms were badly affected. The complete repair of electric fitting with new fixtures is done out of received RUSA grant. Now the students feel comfortable with proper provision of lighting and fans in the class rooms.
4. College office is housed in only one room and various different types of college administrative services are being provided to the students from this only office. The partitions are created by aluminium fitting in this office to provide better services to the students without hassle.

5. As the college is amidst the town, the outsiders in the college was a big menace for students and administration. To check the snooping of outsiders in the college, CCTV camera are now installed in both the buildings of college out of the grant received from RUSA. Now the students are sheltered from indiscipline problems due to outsiders.
6. Girls' hostel of the college is far away from the college and is spread over a large area. CCTV cameras are installed out of the grant received from RUSA for the protection of Girl students and the property of the hostel. Girl students are feeling protected since then the CCTV cameras are installed.
7. Students of the college are benefitted with facilities like water purifier, Photostat machine and Sanitary napkin vending and disposal units. All these facilities are provided out of grant received under RUSA.
8. Students are provided all important information right in the classroom with help of Public Address System which is installed out of grant received under RUSA.
9. Washrooms for the students were also not in good conditions as the water and sanitation fittings were damaged over a long period of time. All kinds of repairs in these washrooms and toilets are made out of the grant for the benefit of students in our college.
10. Kabaddi Mats are purchased to facilitate the students of college. An increase in the players is observed due to this facility provided out of grant under RUSA. New additions like Trade mill and bikes are made in the existing Gymnasium of the college to provide better amenities for the students.
11. New equipments in all the science laboratories are purchased as per the new CBCS syllabi. Students are now able to get the benefit with the exposure of new experiments during their practical sessions.
12. Additional equipments are provided in the existing smart rooms to facilitate latest requirements of the students and teachers as per the curricula and syllabi of CBCS under RUSA.
13. Interactive boards for science laboratories (Chemistry, Botany, Zoology and Geography) and electronic podiums for Physics and Zoology and Geography laboratories are purchased to provide a versatile interactive display facility to the students. Built In with e-Podium works as a powerful presentation tool and supports video collaboration in learning space like class rooms of college.

09.15.2017

How RUSA grant i.e. unutilised or future grants will benefit the student (on basis of action plan).

1. As the college is not having its own building/ campus and the college is very shortly shifting to the new campus. The funds under various sub-heads will be utilised in the new campus/ building as per the requirements and guidelines.
2. Equipments and other facilities will be upgraded according to the accommodation in the new building out of different sub-heads of the grant received for the benefit of the students.
